

Sorry, but Dr. Wayne Carley, the publisher of *American Biology Teacher*, has demanded that I remove the PDF files of my *American Biology Teacher* articles from the internet or be subject to "legal sanctions."

I have asked Dr. Carley for a clarification because I think his demand has no basis. In each issue of the *American Biology Teacher*, it clearly states "**Authors are granted unlimited noncommercial use.**"

Email me at dh321@excite.com if you want a copy of one of my *American Biology Teacher* articles as allowed under the Fair Use provisions of the U.S. Copyright Code. Please specify which article(s) you desire.

David R. Hershey, Ph.D.
