

## The Mission: Perimeter Defense

We have pushed the Germans out of the town. Our squad is to give early warning of any German movement on our positions. Any patrols need to be turned back so they cannot obtain intelligence on our strength.

Sgt **Corregidor**(5) sets up in the woods south of the main road on the east side of town with Private **Easy**(4) and Private **Fox**(3). He sends Corporal **Able** to the North side of the town overlooking the road approaching town. Private **Baker** is positioned on the roof of the factory. Private **Charlie** and Private **George** are positioned by the wall . All are told to hide until the enemy shows themselves.

Unfortunately for the squad, the Germans break through on the American right flank. A squad suddenly shows up just south of the woods where **Corregidor**, **East**, and **Fox** are set up. The hiding Americans get a jump on the Germans.

**Easy** fires and kills 1 German. **Fox** fires and knocks down a German. 2 Germans fire at **Corregidor** and **Fox** and miss. **Corregidor** returns fire and hits 1 of the Germans and puts him out of the fight. He causes the other to duck back and he goes prone.

**Fox** throws a grenade but fumbles it and it goes off. Luckily, the men are not hurt and duck back to a house to the west.

American 4 , German 3

American reinforcement arrives. A Sherman tank drives up the main road from the West. The American squad repositions themselves to cover the south woods.

A German runs from the woods to try to get behind a house but is gunned down by the tanks turret machine gun and knocked out of the fight. The Germans have no place to maneuver and with no reinforcements on the way, they decide to retreat from the area.
