FOR IMMEDIATE RELEASE: ** ACTION ALERT **

RE: (CALL/FAX/E-MAIL your U.S. Senator – JUST SAY - “NO to LOST”)

By: FReeper David C. Osborne

30 October 2007

In the course of human history there comes a time when a free nation must take a stand for FREEDOM and sovereignty. NOW is one of those times!

In about 24 hours or so from now the United States Senate will once again take up the

“LAW OF THE SEA”

If you have not been following this debate, NOW is the time to take a few minutes of your time to understand how serious of a threat this treat is to our sovereignty as a nation.

Please call you U.S. Senator and tell them do not hand over our sovereignty to the UNITED NATIONS -- We are the UNITED STATES OF AMERICA – and our sovereignty is not for sale. As much I like President Bush, I can't understand how he can support such a treaty. I don't publicly disagree with the President very often but this one of those times where I have to say, “Mr. President, please do not sell-out to the UN” -- Please OPPOSE the “Law of the sea”.

TOWARD VICTORY

David C. Osborne
