

CHEMICAL

MIND CONTROL

SATURATION

Chemicals that saturate our body tissues as well as our brain are intentionally loaded to make a **electrochemical interface** this is usually done prior to birth so that you would know no different. This interface allows the "people controllers" to know where you are at all times. See what you are doing through your eyes and hear through your ears. The interface allows them to control your thoughts actions and responses to all stimuli as well as dreams, deja vu and personality traits. Our lives have been controlled by another force with the power of chemicals. The source of these chemicals are oil refineries and raw material operations such as mining and chemical manufacturers. The "People Controllers" have access to technology that we are unaware of and use it to keep people under control. These chemicals have **transmutable** (can change) and **telekenetic** (can be remote controlled) properties. The chemicals are used to create and control illness, disease, aging, accidents, crime and death.

Encephalitis is a common problem IN all people. This medical condition is usually related to bacteria or viruses. In all cases it is chemical in addition to multiple pathogens.

The chemicals also have the ability to hold pathogens in the bodies tissue. Just having a headache will tell you that you have chemicals in your head and are under control. These chemicals cause poor vision, hearing loss, ring of the ears, ear wax, balance and coordination problems, fatigue, flu like symptoms, seizures, procrastination, anxiety, sexual malfunction, tumors, cancer, addictions, cravings, thrush, hair loss or color changes, concentration difficulties, long term and short term memory problems, skin problems, obesity, sinus problems, asthma, allergies, speech impediments, dental problems including TMJ, false memories, all psychological disorders, hallucinations, dementia, learning difficulties, involuntary close duration blinking, black outs, fainting, strokes, and death.

Modern medicine does not have a cure for any disease known to man. Researchers are paid an exorbitant amount to look for the cure, but not find it. Modern Medicine has not been able to find a cure for any disease. It is obvious that all disease is caused intentionally with chemicals by the "people controllers".

KORREKT **"IT'S IN YOUR HEAD"**
