

## Rust Monster Shield Large Wooden Shield +1

This large wooden shield is covered in lumpy rust-red scales and is enchanted to provide a +1 enhancement bonus. The scales are rust monster scales and have been enchanted to retain their rust qualities.

An opponent who misses the wielder by 2 or less is considered to have struck the shield with their weapon. Any non-magical metal weapon striking the shield rusts and crumbles immediately. Magical weapons are allowed a reflex saving throw against DC 20. The item's bonus is 2 + 1/2 the caster level or the wielder's reflex bonus, whichever is better.

If the wielder of the shield fumbles (rolls a natural 1 on their attack roll followed by a miss) they have accidentally struck the shield with their weapon and are subject to the same effects.
