Imagine a world without terrorism, criminals, and corruption. This is an impossible situation, so one can have some fun with the idiots that try and ruin things for the rest of us.

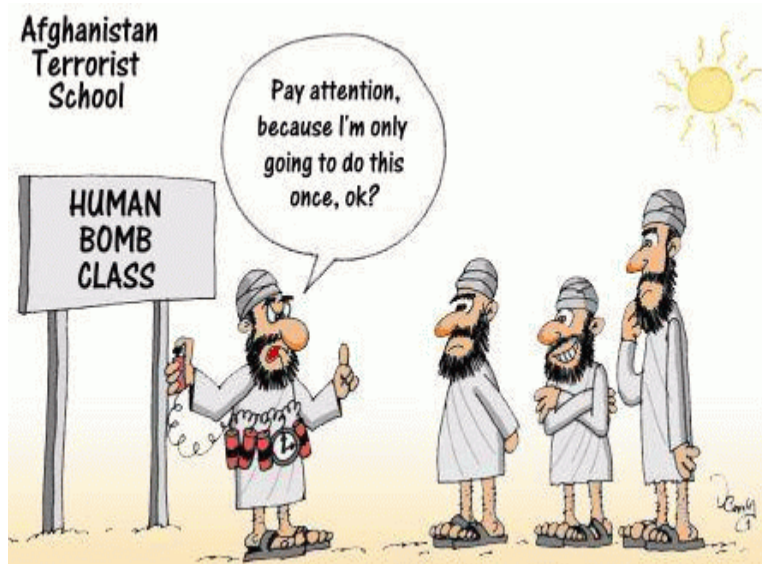

I recorded the majority of these songs during my trip to Washington DC. Like a lot of the songs I write, these include observations of knuckleheads, travel stories, funny times and serious issues. Some of these songs can be heard in their live format on "Comic Relief".

Thanks for all that you do to inspire me to keep writing songs.
