What do the stars have in store for the dorm and apartment dwellers during the 1998-1999 school year? Read and find out what the future holds:

Aries (March 20-April 19) 3 Stars

You look forward to a new roommate experience; but beware the one who may have six pet tarantulas too many and enough tattoos to put the Tattooed Lady from the carnival to shame. Best bets: VCRs make everyone a happy camper.

Taurus (April 20-May 19) 5 Stars

This year will bring nothing but good experiences for you. You will get that great apartment and the perfect roommate. You will be the envy of all your friends for finding such a great place to live at such an affordable rate. Best bets: Be humble about your awesome living conditions.

Gemini (May 20-June-20) 3 Stars

Be prepared for another year in the dorms. But a single room will give you new freedoms that you have not had in previous years. Be careful, though; don't let yourself become alienated from your neighbors. Best bets: Be the life of your hall.

Cancer (June 21-July 21) 1.5 Stars

You, too, will be stuck in the dorms. But this year won't be pretty. Be prepared to cower in the corner for most of the first semester. Your suspicions that your roommate is Satan are not completely unfounded. Best bets: Voodoo dolls are a bad sign. Move out if your roommate has one of you.

Leo (July 22-August 22) 4 Stars

Your initial apartment plans fall through, but a last minute offer from a good friend results in a great place to live and good times with your roommates. Best bets: Be social and throw lots of parties.

Virgo (August 23-September 21) 3 Stars

You end up in Hillenbrand this year like you wanted, but suitemate problems occur frequently. Be prepared for a move come second semester. Best bets: Avoid petty fights about what to watch Thursday nights.

Libra (September 22-October 22) 2 Stars

Living arrangements will be bad this year. More specifically, absolutely heinous. A good clue is the landlord who laughs maniacally every time he sees you and has glowing yellow eyes. Best bets: Just stay home this year. Is your sanity worth it?

Scorpio (October 23-November 21) 5 Stars

This year is going to rock for you. A counselorship is almost definitely awaiting you, and this will expose you to several new people and new experiences. Be prepared for a busy year. Best bets: Caffeine is nice, but learn to budget time so as not to abuse it.

Sagittarius (November 22-December 20) 3 Stars

This year will be much like the last. Same dorm room, same roommate, same dorm food, same shower facilities... you get the picture. To save yourself from boredom, take that really cool class you've had your eye on. Best bets: Watching the paint peel is not a very social activity.

Capricorn (December 21-January 19) 2 Stars

This year you will discover that living with your best friend is not a good idea. Your "Odd Couple" relationship will

start to grate after a week or so. Be prepared to make some compromises or end up looking for a new home sometime in late September. Best bets: Packrat behavior and an 11' by 14' room do not mix.

Aquarius (January 20-February 17) 4 Stars

Change is afoot as you lease an apartment with some friends from one of your classes. You are unsure at first about how things will work out, but the year brings smooth sailing. Just beware shifty landlords. Best bets: Get it in writing.

Pisces (February 18-March 19) 5 Stars

All around, this year will treat Pisces nicely. You will have no roommate problems, your living conditions will be decent, if not great, and you will forge deep friendships with your neighbors. Look for a surprise in December – most likely a stray dog that will find itself at home with you. Best bets: Stock up on chew toys for your new friend.
