7. SOUNDS

Marshall Ford (AKA) **Massive** or **MassDog** the **600 pound +** Los Angeles based Producer/MC has compiled his first in a series of **Producer Tools**. Volume 1 focuses on down tempo ghetto style loops comprised of fat drums, keys, strings, samples and fx.

Each selection plays a full one to three minutes for the **rapper** or **DJ** in need of complete tracks, followed by the elements of the track broken down into **individual loops** and **phrases** for the **Producer** in need of elements for **song creation**. Track #7 on side 2 contains a collection of Massive's own drum samples for those in search of crunchy vinyl drums.

A protege of Fat Jack, DJ Slip and Unknown, Massive has produced tracks for Volume 10, CMW, MC EiHT, Kid Frost, Rappin 4-Tay, Mellow Man Ace and Sen Dog and collaborated with the late Roger Troutman.

"Beats2Technics," Massive's last Beats and Breaks release was well received by DJ's and Producers worldwide, though only a limited release. Also check for **"Watch Yo Back"** Mass Dog's bangin' solo offering.
