

Lady In Waiting *(Track 01 on "The History of Minas Tirith")*

I'm in love with a woman with eyes out abroad
A lady in waiting who doesn't know of my love
She sets me on fire I see her in dreams
For she is the woman that I love and need
And I can't go on much further till I die
Can't keep my lonely love inside

Her hair is brown satin her eyes hazel green
They shine when she's smiling and laughing with me
My life's been in torment over her so
Her heart with another and mine's sinking low

And I've got to find a way to let her know
If I don't I just don't know
Got to tell that I love her so
I hope this song will let her know

And I've got to find a way to let her know
If I don't I just don't know
Got to tell that I love her so
I hope this song will let her know
Let her know
Let her know
