

Time (Track 04 on "The History of Minas Tirith")

Once there lived a man who thought what never comes to some
He reasoned thoughts of time and space and theories of the sun
His knowledge grew until he knew
When life is through times still goes on and on and on
Time still goes on...

People came from far and near to hear him sing his song
They'd hear him talk they'd laugh a lot and say his theories wrong
He'd talk some more they'd laugh with scorn
And say he's wrong but still he'd sing on and on and on
Still he'd sing on...
Hear his song
Hear, hear his song

"The wheels of time go round and round and catch you in their song
The ticking of the clocks go on and soon you find time's gone
We save our time and still time goes on
And when our lives are done time still goes on
(On and on and on and on, on and on and on and on)
Time still goes on
(On and on and on and on, on and on and on and on)
Time still goes on
(On and on and on and on, on and on and on and on)
Time still goes on
(On and on and on and on, on and on and on and on)
Time still goes on and on and on and on, on and on and on and on
Time still goes on and on and on and on, on and on and on and on
Time still goes on
Time still goes on
Time still goes on
Time still goes on..."

Written, produced, and recorded by John Spreier. Bass guitar by Marty Mele. Drums by Tony Miceli. Lead guitar and harmony vocals by David Lieber. Rhythm guitar and lead vocals by John Spreier.
