
New Business Opportunities

Over the past few years, we have noticed an increase in demand for full Computer Project services - not just web design and webpage hosting. Our computerized office allows us to track our client's needs and schedule office calls on one hours notice.

We attack this market very aggressively through the use of:

- **Available pool of specialists**
- **Business-to-Business visits to present and future clients.**
- **Advertisements in trade/business outlets.**
- **Media advertisements on Radio/TV.**
- **Direct sales calls on real estate /management companies.**

We will assist start-up, small business and entrepreneur companies with Web design and IT solutions. Other areas of advertising will be implemented after your business is more established.

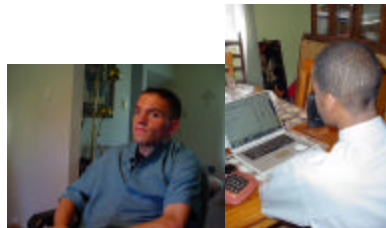

Nu View Productions, LLC

Our Market Summary

Nu View provides a variety of IT/Web services, including, custom website design, PC repair, and Multimedia development services. These computer-based services could potentially ease problems including: marketability, effective meeting organization, and briefing needs, as well as computer network services.
