

With the right leasing partner, there's no stopping you.

At Rollins, we never stop working to keep our customers moving in the right direction.

Our nationwide service includes an extensive preventive maintenance inspection program, unlimited washing, plus 24-hour emergency road service. Our leasing programs are tailored specifically for each of our customers. From family-owned businesses to Fortune 100 companies, our programs help them enhance productivity, gain financial strength, and improve their own customer service. In the leasing business all roads lead to the bottom line, which is why we can say with confidence, "with Rollins, there's no stopping you."

With Rollins, there's no stopping you.

Rollins Leasing Corp.
A full-service transportation company.

What's in ^{IT} for you? Everything!

It's "out-of-the-box" thinking in one remarkably productive package. Only ABB Industrial ^{IT} Solutions™ deliver seamlessly integrated components and the application know-how that supports better decision-making and improves productivity.

Plus, more advantages tailored to your tastes:

- Innovative technology that's easy to use.
- Information that's entered once and shared throughout the system.
- Time and money savings plus reduced errors.
- Scalable controllers so your system can grow as needs change.
- Integration to third-party solutions.
- Reduction of maintenance and training costs through the use of open standards and fieldbus technology.

You can count on ABB's completely integrated portfolio of Industrial ^{IT} Solutions to provide you with the right information at the right time and place to improve your productivity and profitability. There's nothing sweeter.

For more information, call 1-800-626-4999 (U.S.) or 1-614-261-2873, or visit our Web site at www.abb.com/control.

ABB Automation

ABB Automation is Control magazine's #1 worldwide supplier of process instrumentation and controls, and is Managing Automation magazine's #1 provider of industrial automation software. ABB's Enterprise Historian is Control Engineering's 1999 Editors' Choice Award winner. Industrial ^{IT} Solutions is a registered trademark of ABB Automation.

MICRO-STRIP® TOOLS

For Subcontractors: Document Your Work

When working on a building project, be sure to document all work done, no matter how small. This includes taking photos of the work done, keeping a log of the work done, and keeping a record of the materials used. This will help you to prove your work if you are ever in a dispute with the owner or the architect.
