CONTENTS

Introduction . . . . . 1  
Resume . . . . . 2

MEDICAL WRITING SAMPLES

**Published Journal Articles** . . . . . 3  
This sample represents a series of journal articles that were published in the same journal, within one featured section. Only one article is presented here.

**Journal Article Early Draft** . . . . . 15  
I worked with the author on this paper to write, reorganize and polish for submission to a peer-reviewed journal.

**Case Presentation and Poster** . . . . . 17  
This group of researchers needed help in the content and design for their poster, which was presented at a national conference.

**Study Proposal** . . . . . 19  
This document was written to seek funding from a foundation.

**Study Synopsis** . . . . . 22  
The sample represents a document developed for a professional association workshop, dealing with FDA submissions.

MEDICAL EDITING SAMPLES

**Case Presentation – Before and After** . . . . . 25  
This sample contains before and after versions of a document that was edited, and later presented at grand rounds.

**Slide Presentation** . . . . . 27  
The presentation sample contains 8 of 53 screens, and was developed for a meeting presentation.

**Tables – Before and After** . . . . . 29  
These are samples of tables developed for a professional association workshop, and which would be appropriate for submission in a manuscript.

**Patient Education – Before and After** . . . . . 33  
The document was edited to assist patients undergoing a medical procedure.
