

# Room 20's Class Reading Projects

During the school year we will be reading numerous chapter books. Each book will come with it's own packette of questions and requirements.

After lunch I will introduce the first book we will be reading for the first marking period. After a brief introduction I will begin the first chapter, depending upon the length of the chapter I may let you finish reading the chapter silently. We will review the questions before we begin reading so that the prepared, intelligent student knows what to look for when reading. After you finish reading the chapter you may answer the questions for that particular chapter. **You are not allowed to read ahead!** You will all swear on an oath the first day of school not to read ahead, it only spoils the book.

After we finish reading a book you will be tested on it so make sure you read and answer all questions in your packette. We will also be keeping track of all the books we read and rating each book. I am proud to say that my past students have reached a record of 28 books during a school year.

I promise that you will all love to read by the time you complete the fifth grade.

Ms. Gilbert
