Education: High School graduate and technical training auto body repair.

Why are you seeking the office of Attorney General?

There is a current crisis in the legal system and the Attorney General should be in the front line keeping the legal system just for the average person. As a working man I can empathize and understand the needs of the average citizen and make sure the Office of the Attorney General shows equal care and empathy. Enough is enough when it comes to the injustices of the past 30 years.

Top three policy issues:

- 1. Stop Minnesota Corporations from taking advantage of illegal immigrants for cheap labor. This encourages illegal immigration. We need to encourage fair labor practices that cause the level of pay for all workers to improve internationally so that out sourcing and cheap foreign labor are not an incentive to cause Minnesotans to loose their jobs.**
- 2. Stop fraud and illegal practices by corporations and government that harm the ordinary citizen.**
- 3. Prosecute fraud, misconduct and other criminal conduct by public official and corporations.**

Role as consumer protection advocate:

The Office of the Attorney General must protect the public safety and welfare, and additionally protect the public from corruption and fraud by government officials and bureaucracy.

Further there must be a focus on prosecuting crimes that are covered up by local city and county attorneys to keep these local officials accountable.

Priorities of responsibility to state governments, local governments and individuals:

The first and foremost responsibility is to the individual citizens of Minnesota.

City and County governments are subdivisions of the state government, however, these entities, often corporations, should not receive special protection and should not receive legal representation in cases where there is questionable conduct, discrimination, prejudice, abuse of power, or other similar abuse of public office, by any state and local officials. These entities and persons should be responsible for paying for and obtaining their own legal counsel.
