Dorothy Duchene. Reichstadt stated that Mrs. Duchene's daughter, Mary Jane Duchene, is alledging inappropriate care for her mother while she was at the nursing home. She is concerned that the care may have contributed to her death, and Reichstadt asked if I would review the nursing home records. I explained to him that I have a review the nursing home records. I explained to him that I have a review a "private" autop sy on Mrs. Duchene at the daughter's request, but did not feel that this was a conflict of interest since the next of kin were now alledging abuse. I agreed to review the records. A copy of the autopsy, my return letter to Mr. Reichstadt and pertinent Wedgewood Health Care Center records will be kept with this investigative report.

JP

uny 8, 1988: I secured a cell from Berry led, who is now superstance of the morning and on weatherly later to so senies the superstance so in union the secured to so senies the substitution of the secured in the later and to the west superstance of the secured that I considered the fetter passessment to would have

August 3, 1988: I sitived a call from lan Benke, Shininiste Department of Health I Wendhay Eccincul 123-549. 6 who has apparently sectioned a complaint of embeloning prior to the enterpry. I discussed the case with him
