

~PETITION TO REOPEN THE INVESTIGATION OF KURT COBAIN'S DEATH~

To Whom It May Concern:

We, the fans of Kurt Cobain, would like to reopen the investigation of his death. We believe that there is enough evidence to question the cause of death, as a matter of fact, there is more evidence of a murder than a suicide. Kurt deserves to have a thorough investigation completed, and to have justice served! Below are several reasons why the case should be reopened. Please read and consider every one of them:

- ✖ Seattle Police Department investigated the scene as a suicide, therefore not even considering this a homicide.
- ✖ Someone was attempting to use his credit card, even after his death. That alone is very suspicious.
- ✖ There were not legible fingerprints on the gun, the pen or the so called "suicide note". How can that be??? Would he really wipe them all clean before he killed himself??? Not likely!
- ✖ The handwriting on the "suicide note." The last four lines have been repeatedly questioned by experts.
- ✖ The amount of heroin in his system (1.52 Mg per Liter) would have rendered his unconscious almost immediately. How then could he have injected himself, rolled down his sleeve, put his paraphernalia away, then to take of a shotgun and shoot himself??? Not likely!

Those are only a few of many unanswered questions, and they are very significant! A proper investigation needs to be done to at least answer the questions that don't make any sense. Kurt deserves justice!!!

Thank you for taking the time to sign this petition and show your support.

Sincerely,
The fans of Kurt Cobain

READ ME: IMPORTANT INFO ABOUT THE KURT COBAIN PETITION

The Petition To Reopen The Kurt Cobain Investigation came about in a need for one centralized area, where fans of Kurt Cobain, Nirvana, or justice in general, can come to download petitions to reopen the Kurt Cobain Murder Investigation. For years, ever since the Kurt Cobain broke, the internet has been to many online petition sites to reopen the case. And, nothing has been done to reopen the case up until this point. Why is that you may ask? The reason is because there are so many online petition sites. There is no way to know how many people have actually signed the online petitions since they are all run by different people. You may have signed the same one 5 times not knowing it, since there are so many. So, we decided to scrap the whole internet idea all together and go with the old fashioned pen and paper method. Sure, it takes a lot of work and dedication, but in the end the result is much more effective. Here is what you have to do to participate:

1. Go out and get signatures. There are many legal ways to do this and here are a couple. The first is the hardest and one that takes the most dedication. Most of you probably won't choose this method. This is going out on the streets, or your college campus, and personally asking people for signatures. This method also requires you to know a lot about the case, so you can answer any questions the potential signer may have. The second is to ask local businesses in your area if you can post the petition on their information board. Most businesses have this, and it is mainly a place where people hang ad for cars and concerts and such. Some don't even require you to ask. You may only want to hang one page of the petition at a time, since it is rather bulky to hang four pieces of paper on a bulletin board. You have to leave room for others to use the board too. If you show disrespect of the board, the owners will most likely take down the petition. It is very important to have the cover letter and at least one signature page. Otherwise, how are they supposed to know what they are signing?

2. Check back in a week and see how many people have signed the petition. Try to make sure that at the very least there is one signature per box. Name of city they are in would be nice, but not necessary. E-mail addresses and phone numbers are not required but can be included if the signer wants to do so, voluntarily. Only 1 signature from each person will be counted, and any after that will not be valid. If after checking back, the page is full, put up another. You can place petitions at multiple places if you would like, but not too many where you get confused as to how many you have and where they are. Please treat this petition with respect, don't hang them on telephone poles or any where else where they can get ruined, or cause clutter. The more respect we show for what's around us, the more accepting people will be, and the more willing they will be to sign.

3. What do you do when you have completed pages? Each petition contains 90 signatures. A deadline will be set in coming weeks, as to where and when you send the completed petitions. What the date will be, will be determined by the amount of petitions downloaded. When this is determined, it will be placed on the front page of the following website: <http://www.angelfire.com/music6/kcpetition>. You have until approximately a week after the deadline is up to send in all completed and incomplete petitions. At this time, the number of signatures, will be tallied and they will be sent all together to the Seattle Police Department, and any other applicable organizations. Help us meet our goal of 100,000 signatures. Keep checking back for news updates and how the process is coming along. GOOD LUCK!!!!
