

HISTORY

17 years of experience makes this young drummer a solid part to every band that he plays in. With experience in everything from funk to hard rock, he takes groove to the next level and is confident in his diverse, high energy, playing style.

His musical interests started back when he was 7 years old taking guitar lessons. Switching to drums at 13 years old was the perfect choice for this timing conscience, and groove oriented player. He has also played bass guitar in many bands and uses that experience to move his drumming skills forward and has become a rock solid component to any rhythm section.

With lots of live and studio experience with both bands as well as his own material he strives to be a well-rounded musician that can meet and exceed any standards that you put in front of him.

In addition to his high standard of professionalism that he utilizes in his drumming skills, he takes that same professional approach to the next level with his punctuality and professional attitude.
