Arnie & The Cockers

Arnie is an FCAR rescue that was adopted 2 years ago by one of our foster families. He takes care of all of the new foster dogs of the family, especially doting on the sick and injured.

In November 2007 FCAR seized 26 cocker spaniels, 3 of which were pregnant. Two of the pregnant dogs gave birth at Arnie's house and as you can see from this picture he did all that he could to keep the pups entertained. We're not sure who had more fun... Arnie or the puppies!

Arnie definitely proves that the stereotype that all pit bulls are vicious is not accurate!

From the President!

For the last several months, FCAR has had a serious battle to face. After being in operation 10 years, a neighbor started complaining about FCAR's legal right to operate our shelter at its current location. The neighbor first complained last fall to the Fayette County Commission. FCAR attended the meeting and explained to the Commission the inaccuracies in his complaints, many of which we felt were completely unfounded. The same neighbor then was able to escalate his complaint where it ultimately went to the Zoning Board of Appeals to question whether or not FCAR is operating legally under the rural residential code.

In May the Zoning Board of Appeals ruled that FCAR was operating illegally in an R-1 area. **Fayette County Animal Rescue has been ordered to shut down by September 30, 2008 by the Zoning Board of Appeals.**

We have retained an attorney and appealed this decision and are waiting for the next step in the appeal process. We have also submitted an application to rezone our facility to "Special Activities". This past week we presented our proposal to the Planning Commission that voted to deny the request with a vote of 5-3. We then presented to the Development Committee which denied the request with a vote of 4-0. Our last and final vote will be on September 23rd by the Fayette County Commission. They will determine whether our shelter will be forced to close on September 30th.

We have provided additional information on our situation in this newsletter along with details on what you can do to help. Our Board and volunteers have worked tirelessly to fight this decision and will continue to do so but we need your help! Please contact your local government officials and come to the September 23rd meeting. We need your support now more than ever.

Although the zoning issue has been a major concern and distraction over the past few months, it hasn't stopped the important work that we do every day. I encourage you to read through this newsletter for more information about FCAR and our rescues. Thank you for all you do for the animals of Fayette County Animal Rescue.

-Gina Thweatt, President

Fayette Friendly Shopper Cards!

FCAR is participating in the Fayette Friendly Shopper Program. The program provides a discount card for services and merchandise at local Fayette County businesses.

The cards cost \$10 and FCAR receives \$9 of the cost if you purchase the cards through us. The discounts vary but reflect offers not available to the general public. A list of businesses and discounts is located at: www.fayettefriendlyshopper.com. Offers are valid for the entire Calendar Year 2008.

To order a card, send a \$10 check to FCAR, P.O. Box 44, Rossville, TN 38066 and specify that you are purchasing a Shopper Card. We will mail you your Fayette Friendly Shopper Card and you can start shopping immediately!

Yvette Gilbert, FCAR Executive Director, was voted "Kennel Staff of 2007" for her work at Animal Care Hospital by the Memphis/Shelby County Veterinarian Association. We're proud of you Yvette!

Fayette County Animal Rescue

Zoning Issues at Fayette County Animal Rescue

As you read in our Letter from the President, Fayette County Animal Rescue has been ordered to shut down by the Zoning Board of Appeals by September 30, 2008.

FCAR has operated, very publicly, from our facility in Rossville for the past 10 years. We have saved thousands of animals and just this past year received a grant from the County for \$5,000. We work very closely with Animal Control, the Sheriff's department and the District Attorney to investigate and prosecute animal cruelty in Fayette County.

FCAR is pursuing all available options to stay open. First of all, we have hired an attorney and have appealed the ruling. This was a very difficult decision for our Board as we had confidence that our county government would never actually shut down the only humane organization in Fayette County.

When the deadline to file the appeal approached however, we felt we had to pursue every avenue we had so that we could stay open and help the animals of Fayette County. We submitted our appeal on the very last day possible and are awaiting the next step of the process.

At the same time we are continuing to hope that we will be able to gain the support of our county government and that they will see fit to allow us to continue to operate and serve the animals and citizens of Fayette County.

We have submitted an application to rezone the property that our facility resides on to "Special Activities". We have made significant improvements to the shelter over the past few months to ensure that we have addressed all of the real or perceived issues with our shelter that have been brought up by our critics. We planted over \$1,500 in landscaping, erected additional privacy fences and a 12' sound barrier.

Unfortunately, even with this huge additional effort, our request was denied by the Planning Commission as well as the Development Committee on September 8th and 9th. Their

decisions, however are not final, they are simply recommendations that they make to the County Commission. The final decision will be made by the County Commission on September 23rd.

Please support FCAR and come to the September 23rd County Commission meeting at 7pm at the Bill Kelly Justice Center.

We need to show our local commissioners that animals DO matter in Fayette County and that their constituents need FCAR! At each of the previous meetings people in opposition of our shelter have been very vocal, although the majority of the people are bringing up situations that are completely unrelated to FCAR. We need people who believe in FCAR to attend and speak out as well.

Please also continue to call and write the Fayette County Commissioners. You will find a list of the commissioners on our website.

Note: Please contact the Commissioners to show your support for FCAR. They are NOT the ones responsible for the current decision to shut FCAR down; that decision was made by the Zoning Board of Appeals. The County Commission WILL be making a decision on our future at the September 23rd meeting.

For more information, please visit our website or call us at (901) 854-2565.

A HUGE thank you to businesses that have made significant contributions to FCAR recently:

- Print Solutions
- The Printery
- Fayette Falcon
- Q107.5
- First Citizens Bank
- Quikrete
- Kellogg's
- Pepsi

Madeline's Legacy

~Cheryl Whitt

I have adopted three dogs from FCAR and fostered several others. I have a tendency to fall in love with every dog that I foster and want to keep them.

It all began on July 6, 2002. My son Jacob and I visited the Petco at Poplar and Highland to "look only" for a dog to go with the house that we had just bought.

As we looked at all the dogs, Jacob was attracted to a fifteen month old black lab mix, Maddie (affectionately known as "Mad Maddie"), which I was not impressed with at all. I kept trying to get him to look at her next door neighbor, but his mind was set on Maddie.

I walked out of the store and when I returned, Jacob was walking her around the store on a leash with a big smile on his face. I knew then we were taking her home. Jacob decided to call her Madeline, which was her true name.

Sadly for us, Madeline didn't have a long life like many dogs do. In 2005 she developed lymphoma and we decided the best thing for her was to put her down. She was much loved by Jacob, myself, the volunteers at FCAR, and the staff at Animal Care

Hospital. Besides her family, those who were with her on her last day were Delores, Yvette, Gina, Dr. Melanie Galloway, and Allison.

It seemed fitting that the place and people that rescued her and prepared her for us would be the place she would take her last breath. She always loved going to the vet, I think she knew all that they had done for her and was forever grateful.

Madeline's final resting place is at FCAR under a tree, similar to the one she used to lay under at home. From this spot she could look through the cracks in the fence and was always the first to know when Jacob was home to play with her.

Very soon after, we brought Sky, a beautiful brindle and white Pit Bull with blue eyes, home to "foster." Several months later we finalized her adoption.

Last year, when Jacob joined the Army and left Sky alone with me I soon realized she needed a four legged playmate; I was unable to meet her need to rough-house like Jacob could. I had been fostering Simon, an Australian Shepherd mix and decided he would complete our family.

I went many years without a dog at all, but now I cannot see myself without at least one. I will most likely always have an FCAR dog because I know they are loved and cared for by the volunteers and staff as if they were their own.

And to think this all started with a little black lab mix named "Mad Maddie."

In Memory of Faith

~Yvette Gilbert

Yvette Gilbert is one of the founders of FCAR and sent the following email to us recently. It touched us so much that we wanted to share it with all of you.

Six years ago somebody dumped a box of puppies on my driveway, on Mothers Day. They were little bitty and pretty sick. There was only one girl, and she was very weak. I just looked at her and said I have faith you are going to be okay, and that is how she got her name. I ended up keeping four of the pups, Ice (his one blue eye reminded me of an ice cube), Herman (he had a hernia, so it turned into Herman with a hernia), and Huey (he was so large, I said he was huge and baby talk turned into Huey), and my little Faith.

One evening, everything was normal; the dogs all know what to do. I have to close the doggie door at night in their doghouse (which is a shed), because they would bark all night if I didn't. They all ate and then came to me for loving and curled up in a ball and went to sleep. We have it down pat, it's strange how they pick up on things so quick and just do everything the same way night after night.

The next morning I went to open the doggie door and Faith wouldn't move, I knew she was gone, but I freaked out and tried to wake her up, do whatever I could to get her to move and she wouldn't. I had lost my Faith. She died in her sleep. She was still curled in a ball, just like I left her. I don't know why I am writing this, I just felt like I had to tell everyone about her. She made my life better & I will never forget her.

Fayette County Animal Rescue

17 Horses Seized in Animal Cruelty Investigation

In October 2007, FCAR received the first complaint about horses in Williston that appeared to be underfed, as well as in need of medical care. For the next 3 months we worked with the owner, attempting to remedy the situation through education of TN law and basic needs of horses.

In January, when we reached the point where changes by the owner did not seem possible, we attempted to compromise with him by allowing him a set amount of time to find new homes for his 30+ horses rather than prosecuting him for animal cruelty. We thought that progress was being made when we believed he had gotten down to 6 horses, however in March the owner informed us that he was keeping his remaining horses and would be purchasing more. At that time we filed charges against him for animal cruelty.

While awaiting the court date we were once again notified by concerned citizens that the situation for the horses had become even direr, so we moved forward with seizing the horses so that we could provide adequate food and veterinary care while we awaited the court date. We also found out that he actually had 17 horses, not 6 as we were originally told.

The animals were all very underweight, had significant hair loss and various other medical issues as the pictures to the left show. We immediately began feeding them multiple times a day and providing the veterinary care that they desperately needed.

The first court date was on April 29th where the judge recused himself due to previous dealings with the owner. For the third time he informed the owner that he was not to touch the horses or interfere with Animal Control or FCAR as we cared for the animals.

After the hearing Animal Control discovered that 11 of the 17 horses had been 'removed' from the property. The owner was brought back to court and was put in jail in contempt of court due to the disappearance of the horses. We returned to court the next day and the judge informed the owner that he would remain

in jail until the horses were returned. The owner insisted that he knew nothing about the whereabouts of the horses.

Although we were not aware of it at the time, that same day the owner's mother and friend were arrested in Texarkana with the horses. On their way to Paris, TX, where we believe that the horses were going to be sold for slaughter, their horse trailer had gotten a flat and the garage owner noticed that a horse was down and was being trampled by the other emaciated horses. He called the police and they seized the animals and arrested them both, charging them with animal cruelty while transporting the animals. For the whole story, go to: <http://www.texarkanagazette.com/news/Breaking-News/2008/05/01/authorities-find-11-malnourished-horses-37.php>.

FCAR was unaware of this for 6 days and was diligently following up on all of the tips we had received, searching for the horses. The next Monday we were forwarded the story from the Texarkana Gazette and were amazed to find out that the horses were indeed the ones from Williston. The 11 horses were cared for in Texarkana by a wonderful rescue group until the scheduled court date on May 22. At the hearing Betty Blackburn and Emmons Booth both pleaded guilty.

The horses were in even worse shape than when they left due to dehydration and being stuffed into that trailer and it is with great sadness that we found out that the horse that was down had to be euthanized.

The case against George Blackburn was concluded on July 29th and he was sentenced to a maximum of 11 months, 29 days probation and ordered to pay a \$1,700 fine and restitution to FCAR. Although we are not happy with the lack of jail time, we are relieved that we now have legal custody of the animals and can find new, loving homes for them.

UPDATE: George Blackburn has appealed the verdict in this case. The District Attorney has reached an agreement with him and the decision will be finalized next week in court.

In Loving Memory

Please pray for our
rescues that have
crossed over the
Rainbow Bridge:

Trinity, Belle, Wyatt,
Delilah, Faith, Ice,
Posty, LW, Beezus,
Makenna and Jacob.

Horses (continued)

During this entire ordeal, ARTEX Animal Welfare League cared for the 11 horses that had been seized in AR. After much review and discussion, FCAR decided to turn over custody of the horses to ARTEX pending the outcome of the appeal. They have done an outstanding job caring for these animals and already lined up permanent homes for most if not all of them once the court case is complete.

Again, pending the outcome of the appeal, FCAR has 3 horses that will be available for adoption. Please see the box to the left for pictures and descriptions of the horses. You can see additional pictures on our website at: <http://fayettefcar.com>.

If you are interested in pre-adopting or know someone that is please contact us! And thank you all again for your support during this effort to save these horses.

Happy Tails – Appa & Momo

In March 2007, the Hannah family adopted Cinderella, now renamed Appa from FCAR. If you could ask for the perfect new family for a dog, the Hannah's are it. Appa has been spoiled rotten! She has a beautiful yard to play in, goes on walks frequently and plays with the 3 boys in the family when she isn't being spoiled by mom. They had originally wanted two dogs and for the next few months thought a lot about getting Appa a friend. They frequently email or visit us (which we appreciate a LOT) so when Heath came around we let them know that he might be a good match for Appa. That is, if a goofy and incredibly sweet boy is what they were looking for.

After thinking about it for a short time, they decided to come to an adoption day and see Heath and ended up taking him home to be Appa's best pal. Heath is now renamed MoMo, and spends hours wrestling and playing with Appa and his new family. His mom describes them as this: "MoMo should have been named Jethro, like on the Beverly Hillbillies. He is a big, awkward, lovable, eater. Appa will forever be a princess." A FABULOUS Happy Tale for 2 of our rescues!!

A Rescue Dog

*I was born homeless, I've never had a ball, toy, bed
or someone to play with.*

I have been kicked, beaten and abused.

I have survived without sufficient food and water.

*I have roamed the streets and fields looking for a
home but never finding it.*

*I pray that a special person will find me, take me
home and love me the rest of my life.*

I pray it is soon.

I pray that special person is you.

*Even though life has not been fair to our rescues, they are full of love and deserving
of a good life. Adopting is a commitment to love, spend time with and care for a
needy animal. If this is you, then you are that special person and you will be
rewarded ten-fold.*
