LOGAN  
Can't see that far into the future?

RORY  
It's crazy right now.

*Kids*

LOGAN  
I'll check in with you later.

RORY  
We'll see how it goes.

Rory heads to the door to exit. Logan grabs hold of her waist, and Rory just perceptibly pulls back, as he gives her a quick kiss.

LOGAN  
Have a good day.

RORY  
(a little formal)  
You, too.

*please note: your speed doesn't have to be as fast as the link you listened to online.*

Rory exits. Logan looks after her, less than happy.

12 INT. BUS (MOVING) - DAY (DAY 3)

12

The group is en route to the math contest. There are about TWENTY KIDS in total, including April. In the front of the bus, behind the driver, sit Kelly, Mr. Munster, and Earl. The camera moves down the aisle and discovers Luke, sitting away from the other groups, and smack in the middle of the kids. Next to him is April. Near them is a boy named FREDDY. Near April are two of her friends, MARCIA and SUE. From the very top of the scene, April, Freddy, Marcia, Sue, FRANK, and three others around them are enthusiastically singing Tom Lehrer's "The Elements."

LUKE

What was all that?

APRIL

It's all the chemical elements.

MARCIA

At least the ones that have come  
to Ha'vard.

LUKE

(to April)

Any idea what's going on here?

Luke points to a nearby boy, concentrating hard as he does the following:

FRANK

One four six eight four four zero  
nine zero one four two zero one  
nine nine five six one one five  
one eight seven...

APRIL

That's Frank.

MARCIA

Huge show off.

APRIL

Always rubbing our faces in the  
fact that he knows the first three  
hundred digits of pi.

LUKE

Of course.
