CHAPLAIN'S MESSAGE

My Brother Knights,

Christ is Risen!

Our cultural and political malaise regarding the dignity of human life from conception until natural death is both troubling and morally grave. Any kind of attempt to address these issues meets with avoidance or hostility, and falls short of any kind of real engagement of the public in a truly comprehensive democratic process.

With his permission, I wish to draw your attention to a recent and excellent homily given by Brother Knight, Deacon Chris Barrett.

Christ is Risen ! Truly He is Risen !

Your brother in Christ,
Fr. John N. Burchat, Chaplain

We Must Obey God

A Homily by Deacon Christopher Barrett

It was 10 years ago this month, right after Easter, that Anne & I went on pilgrimage in Spain. We walked 800 km from the Pyrenees in France to the Northwest corner of Spain to the Cathedral of St. James the Apostle in Santiago de Compostela. During our 37day trek, we were able to attend Mass almost every day in whatever village where we would spend the night. We brought our "Living with Christ" daily missals in English so we could follow along with the readings which were, of course, read in Spanish. What was interesting was that we would come out of church after Mass, and talk about how the readings from the Book of Acts seemed new to us. We were both startled like we were hearing them for the first time and amazed at what we were hearing.

Ten years later, I find myself listening to and praying these readings from the Book of Acts as if I was hearing them for the very first time and I'm amazed at what I'm hearing. Just when you think you have a handle on what it means to preach the Gospel and to evangelize, you read about what the Apostles and early disciples went through following Jesus' directive to preach the Good News to everyone, teaching them to observe all that he had commanded them. We read this week that the authorities tried to intimidate the Apostles into silence. They threatened, imprisoned, and beat them. And how does Peter respond to the council and high priest when told not to preach and teach about this Jesus of Nazareth? He says: "We must obey God rather than any human authority". We must obey God! We can't be silent in proclaiming that Jesus Christ suffered, died on the Cross, and was raised up by God and sits at his right hand. He is our Savior who brings us to repentance and forgiveness of sins. And we are witnesses to this!

There is our battle cry: "We must obey God rather than any human authority". Whether we are pilgrims in Spain or at home in Canada, we are bound to witness to the Gospel, to live our lives in love of God and neighbor obeying the commandments and living the Beatitudes. How often have we heard from family or friends or politicians or the media: "don't impose your beliefs on society" or, "you know there is a separation of church and state." We hear slogans such as these from secular progressives: we are committed to science and evidence-based policy, not superstition. Keep your religious beliefs private. Well, we can't remain silent about our faith, about teaching Gospel truths about every person's human dignity and the moral order and neither could Peter and the Apostles.

It seems we are challenged every day as Christian Canadians with another affront to the respect and protection of all human life. This week in the House of Commons, members are debating a private members bill to ban sex-selective abortions. The bill, if passed into law, would ban all abortions that are based on the predicted sex of the fetus. Of course this practice of sex-selective abortions almost always means the killing of pre-born baby girls. In Canada we have no legal protection for the unborn. This private members bill would afford a bare minimum protection. However it is likely that this bill will garner only some Conservative votes but all of the other opposition parties and the government will vote against it. Even the leader of the federal Conservative Party has said he will vote against this bill saying: "I will always defend the rights — the human rights — of all Canadians to make this decision for themselves." What an ironic and appalling statement.

The Canadian government has recently expanded access to euthanasia and medical assisted suicide even for those whose death is not “reasonably foreseeable” and for persons with mental illnesses or disabilities. The Canadian Conference of Catholic Bishops released a statement late last week condemning this further move towards a culture of death.

Our position remains unequivocal. Euthanasia and assisted suicide constitute the deliberate killing of human life in violation of God’s Commandments; they erode our shared dignity by failing to see, to accept, and accompany those suffering and dying. Furthermore, they undermine the fundamental duty we have to take care of the weakest and most vulnerable members of society. Human life must be protected from conception to natural death, at all stages and in all conditions.

They go on to say:

We would find it unacceptable if healthcare professionals who oppose euthanasia and assisted suicide were ever to be coerced to participate in acts which their conscience finds morally wrong. The direct killing of a person may never be considered a duty.

Of course, that is exactly what is happening. Doctors and nurses are being coerced to participate in morally wrong acts.

We must obey God rather than any human authority that enacts laws that violate human dignity or wrongly restrict the Church’s freedom to evangelize and speak out on moral issues. We must not be silent. The Catholic catechism teaches that Catholics should be good citizens, but that “the citizen is obliged in conscience not to follow the directions of civil authorities when they are contrary to the demands of the moral order, to the fundamental rights of persons or the teachings of the Gospel”. We must continue to speak out, to resist the culture of death and to proclaim the Gospel of Life. We do that by properly forming our own conscience with the truths of the Catholic Church and by living out those truths and teaching them to our children, grandchildren, nieces & nephews, brothers and sisters, and all people of good will.

Daily prayer, especially intercessory prayer for the conversion of hearts, reading Sacred Scripture, especially reading from the Acts of the Apostles during the Easter season, regularly attending Mass when possible, these are ways to inoculate ourselves from the culture around us and to build up the Body of Christ.

I pray that as we continue to read from the Book of Acts this Easter season, we may be amazed and moved by the accounts of the Apostles and the early Church as if we were hearing them for the first time with a freshness and openness of heart, through the power of the Holy Spirit.

Thursday 2nd Week of Easter April 15 2021 Acts 5.27- 33; John 3.31-36

DISTRICT DEPUTY MESSAGE

Brothers:

With the third wave of the pandemic causing another lockdown, it is hard for us in Canada to predict a recovery of operations in the near future.

Supreme has developed a ”COVID Recovery Program Guide Book” to help local councils to resume their activities. This 24 page document is available on the Supreme website {KofC.org}. The ramping up must follow provincial and federal guidelines in social distancing including the wearing of masks. As with every process, this works better with a plan and target dates to implement.

Please use the same site to get information on the format for regular business meetings {form # 10318}.

By the time you are reading this, the 118th State Convention will be over and a new slate of officers elected.

I hope and pray that we will soon be on the road to full recovery with group herd immunity against this virus and I look forward to the time we can meet again in person. I am sure you all feel the same. Until then, stay safe.

Yours fraternally
Bob Coyne
DD 44

Message from the Recorder – Re COVID

Some of our older Brothers and our widows who are not computer literate and/or who do not drive may have been unable to book a COVID-19 vaccine appointment. Members of our Council are willing to help them register for their COVID shot and/or drive them to the vaccine site at the Nick Smith Centre in Arnprior. Should you or any Brother or widow that you know of needs help in this regard, please contact Grand Knight Bob Lee.

Message from Deacon Michael

As the Corona Virus continues to ramp up all over the world, we need to trust even more that God is always with and is near to each one of us!

We need to pray always for God's help and forgiveness. We also need to pray for a quick end to the pandemic and all those affected and suffering and dying from the virus.

We also need to pray for all those who put their lives on the front line and who reach out to others, doctors, nurses, paramedics, all those caregivers. That God will bless them and keep them safe!!

Also remember that this is not our permanent home and we shall all be together once again in our heavenly home; where there is no suffering, no pain, no sickness. Only peace and Love!!!

God Blessings on you and all your loved ones. You and all your families are all in my Dailey prayers Brother Knights!!

Deacon Mike.

Top 3 Reasons to Avoid Bank, Credit Union, or Trust Company Mortgage Life Insurance

Worthy Brother Knights & Families: Most people understand the importance of having life insurance to cover liabilities such as credit card debt, loan payments, mortgages, etc. However, many are not aware of the perils of having your mortgage insured with the bank. If you are not aware of this, then now is your wake-up call: **don't be caught dead with bank mortgage insurance and here are the top three reasons why!**

Reason #1: Premium & Cost

While the monthly premium is generally locked in at the rate per \$1000 according to the age of the older insured person, the amount of the payout shrinks as the mortgage is paid down. What does this mean for you? The cost of mortgage insurance becomes very expensive as every week passes! The graph below shows a \$100,000 mortgage with an amortization period of 25 years, at an interest rate of 6.7%. The balance owing declines as illustrated.

Declining Balance versus Level Coverage

To illustrate the problem, let's say you pay \$50 per month for bank mortgage insurance at year one. After 15 years, you continue to pay \$50 per month, but for only about \$60,000 of protection. After 20 years, you continue to pay \$50 per month, but for only about \$40,000 of protection. The price per \$1000 of insurance keeps going up!

The Knights of Columbus offers a low-cost solution, and upon death, your beneficiary receives the full \$100,000. And, the premiums remain very competitive to the bank's! If you are over 30 years of age and a non-smoker, **your premiums with the Knights of Columbus just can't be beat by the banks!**

Reason #2: Beneficiary

When you die, the bank receives the proceeds. You cannot assign anyone else, including family members, as beneficiary. In contrast, with the Knights of Columbus solution, you appoint a beneficiary who can use the proceeds in whatever manner they desire. If it is wiser to invest the proceeds rather than pay off a low interest

mortgage, the beneficiary has the choice. If your family does decide to pay off the mortgage, they can keep the balance of the proceeds. **In the example above, if you died 15 years later, your family would keep about \$40,000 and have the home completely paid off! You get unparalleled value!**

Reason #3: Protection

Any change to a mortgage document – refinancing or a change of address, for instance – opens the door to collapsing the mortgage insurance agreement with the bank. You are then required to reapply for insurance, and rates increase with age upon renewal. If your health is poor at that time, the application may be turned down, leaving you with no protection. **With the Knights of Columbus, your protection is guaranteed for the full length of the term, regardless of any change in your health, and is completely independent from any changes made to your mortgage, including refinancing or transferring the loan to any other lender.**

Important notice: Our mortgage insurance plan does not replace CMHC mortgage insurance, which is insurance you buy when you do not put at least 25% deposit down to buy your home.

You are not obligated to take the insurance coverage with the bank you obtain your mortgage from! Everyone who understands insurance, including any trustworthy bank lending officer, will inform you that there are superior options available to you elsewhere in the market. Examine the following features comparison and then decide how you wish to protect your family!

	Knights of Columbus Plan	Other Lenders
Do non-smokers pay much less?	Yes	No – smokers and non-smokers pay the same rate
Who owns the policy?	You, the insured	The lender
Who receives the death benefit?	Your designated beneficiary	The lender
Does the insurance remain in force if I change lenders?	Yes	No
If I am applying jointly with my spouse, are the premiums calculated fairly based on our individual age?	Yes	No – premiums are generally based on the oldest applicant
Are the premiums guaranteed?	Yes	No
But my bank told me "my premiums will remain constant even as I get older"!	Your premiums stay constant, independent of which bank(s) you do business with.	True. As long as you don't switch banks or refinance your loan (meaning you will accept their new interest rate upon renewal, no questions asked! How many people do you know that do this?)
Who can cancel the policy?	Only you, the owner.	The lender, at any time
Can I convert this insurance to a permanent plan?	Yes	No
Can I receive professional, expert insurance advice?	Yes	No
When is the policy underwritten (processed & approved 100%)?	Before the policy is issued.	After your death. Your policy may be declined at that time!

I recommend that everyone watch the CBC Marketplace episode "In Denial" – it features heartbreaking stories of families who have suffered financial hardship and learned the hard way of the perils of bank mortgage insurance when a claim is denied. For those of you reading this bulletin via e-mail, please access the video at this link: <https://www.youtube.com/watch?v=qe61HVG1wUo>

Should you have any questions, please feel free to contact me at your convenience.

Be involved...

Membership is now and shall forever be the lifeblood of our Order. Father McGivney's dream was to create a group of men in service to their church, families and community. Without new members our Order cannot grow, and without growth Father McGivney's dream cannot be fully realized.

In these days when the teachings of our church are ever more important, we must stand up for our Holy Father, our Bishops, our Priests and Religious. We must continue to increase our numbers, growing a community of faith, charity and service. Who among us does not feel he is a better man for being a Knight – informed in faith and caring of our fellow man?

Membership recruitment can occur in many forms, from parish drives, on line and recruiting one-on-one. It is also important to retain those members we already have. Membership recruitment for and of itself can be a futile endeavor if it is not accompanied with programs and activities engaging the interest of the members and making them feel welcome, motivated and involved.

As we continue this fraternal year, start looking to the future, let us resolve to increase our participation in the many programs that our Order offers. These programs play a vital role in the retention of our members. Far too often we recruit members, but then we do not involve them in activities that keep them active and involved. Before long they become bored and inactive, and then soon leave the Order. No one wants to belong to an organization simply to attend meetings. There has to be a reason to get involved.

If the Council isn't doing anything, in the Church, in the Community, what reason is there for its existence? Fraternity is indeed a tenet of our Order, opportunity to socialize with our brothers and their families, to have fun, are important, but it must still have a purpose. Give your members a purpose, a reason to remain active....that in itself was what Father McGivney want from his councils.

The more active we are in our programs, the more vibrant our Councils become. These programs also make our presence better known in our parishes and our community at large. This also assists in recruitment of new members. When members of our church community witness our involvement with the youth of our parishes, and our other many other programs we are involved in, they are more likely to consider joining the Order.

We do great work in the Knights. No one who looks at the big picture of our commitment to charity, through financial support, through many hours of effort could possibly doubt that.

Let's recruit, let's get active, spread the word! Let's make this one of the greatest years in the long and proud history of the Knights here in Ontario. Vivat Jesus.
