Ms. Annie Beare
Cab Calloway School of the Arts
National Honors Society
100 N. DuPont Street
Wilmington, DE
19807

Dear Annie,

On behalf of AIDS Delaware I would like to thank you and the Cab Calloway School of the Arts, National Honors Society for your participation in the 2003 Delaware AIDS Walk. According to our records your team was 10 walkers strong and raised \$738.00. This is an outstanding effort on your part and we truly appreciate your helping us raise funds for our case management, testing, education and prevention efforts.

I am especially glad to see youth teams who recognize the importance of HIV/AIDS prevention. In light of the fact that over 50% of all new HIV infection occurs in people between the ages of 13 & 24, it is vital for young people to be more aware of the dangers and know that it can happen to them too.

Delaware is among the highest ranking states in the nation for per capita HIV infection rates. Together, we can see a time when we can say that it is "Good to be Last" in the first state.

Thank you again and mark your calendar for the 2004 Delaware AIDS Walk on Sunday, September 26.

Gratefully,

Stephaine Grant
Director of Development, AIDS Delaware
