

## **NEW-Thanksgiving Day 2017--Intro to Prosperity Seed Gifting & Manifestation**

### Secrets of Seed Faith Planting, Tending and Harvesting

A Square One Workshops/Seeds of Wisdom Production by

Gordon Jay Alexander

Gifting is an ancient concept. Churches and preachers have become rich via the idea of tithing, or gifting to the entity involved.

*Cast your bread upon the waters*, is the old world mantra which is a metaphor for giving and then receiving.

If you are interested in discovering the seemingly magical world of manifesting your dreams, and attracting all of your desires to automatically come into your world, this new hotsheet report is for you.

#### **It is an introduction to seed faith giving.**

It is a short, pithy and concise report which gives you the basics of how to plant your own prosperity seeds and allow them to grow.

- **Discover the FIVE lanes of your personal highway to success**
- **The six part *process* to manifesting your dreams**
- **One word which changes your perceptions of desire**
- **Attitude toward receiving, correct this, life gets fantastic**
- **Step-by-step activities to make your thoughts real**

This is an introduction. Don't expect a big book, if you need lots of content, I'll send you my yellow pages. If you judge information by page count and weight, then this is not for you, thanks for reading so far.

I have kept it short and sweet for a good reason. It is also an example.

This report is NOT for sale. You will not find a BUY NOW button on this page, there is no upsell or downsell or list, you don't even need to give away your email address. See, none of the same old-same old usual Internet Marketing gimmicks.

#### **Simply gift as your budget allows.**

The button below is for my PayPal account, and whether you gift 10.00 or a \$1,000.00 it is treated as the same. It is YOUR bread you are casting upon YOUR waters. Also, I promise you will not get any additional emails, follow up offers or any other promotions, fair enough?

Gifting has been a great source of joy as well as income for me, and as an old

man sitting in his rocking chair, I want to share some of that joy with you before it is too late.

In these twilight years I want to work with people, be around people, talk and discuss ideas and concepts with people who are truly INTERESTED.

Oh sure, there is a lot of talk about how to make money, set goals, choose your desires, create a dream board...all that stuff. But there isn't a marketing plan to get you into some sort of funnel.

If only 3 people in the world do this, and they are interested in making their lives what they want them to become, then I'll be a happy old man.

To paraphrase Paul from the New Testament, I desire to speak to a few interested people clearly and concisely...rather than sell to 10,000 just for personal gain.

The object of cash gifting, as well as planting your thought seeds into the Cosmos is to benefit all who participate. Listen, as a marketer, I have greatly benefited from my offers over the years.

Hopefully my customers benefited too. But that was business, where we Entrepreneurs keep a close eye on the bottom line.

Cash gifting and idea manifestation is about every participant's bottom line...which hopefully is growth and fulfillment.

If you need page after page of brilliant copy writing and salesmanship in print, sorry to disappoint you. You either want this, or you don't. Either way you tell me everything I need to know.

If you desire a detailed biography, that is, if you are more interested in my history and background than you are in your own future, I can accommodate that. Our forum has been continuously running for 17 years. Lots of bio and past there.

But if you are more interested (and you should be) in YOUR future, then begin your journey now with whatever gift your budget permits, OK?
