

The Longevity Series

EYL's Longevity Series takes the best of the ancient strategies and combines them with the ingredients and the technologies only recently available. After 27 years of research, our scientists have created the ultimate life enhancing formulas. Formulas so powerful, that for the first time, we can help you generate health, youthfulness and beauty, both inside and out!

EYL offers the most unique combination of three formulas that work in absolute synergy to generate functional longevity: the ability to experience vitality, energy and grace in all the years and all the activities of your life.

What constitutes aging?

As the body ages...

- our skin loses its tone
- our hair has less luster
- our joints are less flexible
- our bodies fail to metabolize nutrients as well
- our bodies lose muscle mass
- cellular activity and effectiveness break down and therefore expose us to disease

Although getting older is natural and inevitable, getting OLD, isn't. By exercising, eating wholesome foods and offering your body proper, advanced supplementation, you can create FUNCTIONAL LONGEVITY!

EYL's Longevity Series is the most advanced supplementation program on the market today, offering nano-technology nourishment to retard, and in many cases, reverse the aging process.

Calorad:

Calorad is our foundational liquid collagen supplement that helps the body utilize unwanted fat and assist in building lean muscle mass during the first 90 minutes of sleep. Collagen supplementation is the foundational supplement to create functional longevity.

Prosoteine:

Is a revolutionary, patented plant-based amino acid liquid protein that feeds the body at the cellular level, activating and nourishing the energy levels at the core of the cell to produce both a look and a feeling of youth and energy.

Calorad Cream:

Calorad cream is a serum that lavishes the skin with a nourishing base of collagen. The formula is so advanced, combining ingredients so innovatively, that you feel the enrichment immediately. The exclusive mixture of ingredients stimulate, moisturize and nourish to bio-illuminate your skin. Your skin will radiate freshness, firmness and youth!

Prosoteine throughout the day, Calorad and a Cream treatment before you sleep... the perfect plan to extend the quality of life and create grace, vitality and beauty in all you do.

Support your body inside and out with this unique and innovative trio...
