Comments / Inquiry:	We received an email from you re: possible hacking attempts.

To whom it may concern:

To the best of our knowledge we do not have an account at Washington Mutual.

There has been a problem with interference with this e-mail all over the internet and through various cgi processes all over the internet by:

<http://forums.e-democracy.org/>
<http://www.aec.at/en/prix/communities/winners2005.asp>
<http://www.groupserver.org/>

You should look to these sources for programming problems and possible illegal hacking using member or former member e-mail addresses.
