WEATHER COURSE

An AW resident, who is a Canada and United States Power Squadron instructor, is offering to teach a general weather course that will benefit those sitting in their living rooms as much as those standing behind the helm of a boat. Each student will receive a Weather Manual, a set of 3 Daily Weather Maps and NOAA's "Sky Watcher Chart" - a reference to assist in identifying cloud types, helpful indicators of approaching weather. It would probably be a daytime course of about two hours per weekly session for 7 to 8 weeks. There will be a charge of \$90 for materials only. If you are interested in this class or for further information, call Carolyn Agee (not the instructor) at 218-1137.

DIRECTORY CHANGES

Are you a new owner in the community? Have you moved to another house within the community? Do you want your name or phone number removed from the directory? Has your club changed officers or contact person for the new season (page 5)? If you answered yes to any of these, then you must fill out a Directory Change Form, which can be found in your Apache Wells Directory or in the Homeowners Office. The changes must be in the office no later than December 3rd.

WALKING PATH RESULTS

Last season a survey was taken as to whether or not to pave, with asphalt, the walking path around the ball field and retention pond area. Of those who responded, 45% chose to have it paved and 65% chose to leave the path as is. The path will be maintained as it is.
