

How you should treat your girlfriend?

- ❖ Put your arms around her waist and whisper in her ears.
- ❖ Kiss her every chance you get.
- ❖ Hold her close when she's cold.
- ❖ When you are alone hold her close and kiss her.
- ❖ Kiss her on the tip of her nose (It will give her the hint that you want to kiss her)
- ❖ While in the movie, put your arm around her. She will automatically put her head on your shoulder, then lean in and tilt her chin and kiss her lightly.
- ❖ When she complains that her neck or shoulders hurt massage it for her.
- ❖ Look deep into her eyes and tell her you love her.
- ❖ Lay down under the stars and put her head on your chest, so she can listen to the steady beat of your heart. Link your fingers together while you whisper to her as she rests her eyes and listens to you.
- ❖ Now make a wish about something you would like to happen between you and your crush.
