

Why is there a gap in Chayson's college playing years? Even though there is a gap, Chayson has one to two division 1 years of eligibility left, once the athletic department compliance office submits the verified documents of the illness to NCAA. He also has three division 2 years of eligibility (6 semesters) remaining. Chayson was ill from the end of 2011 until 2015. He has several verified hospital/doctor official documents for the past years. Since 2015, Chayson has been training and has brought himself back into a high level athlete. He is now healthy. Chayson has the doctors' ok to play college basketball.
