Special thanks go to Annette McNicol and Jack McNicol for their help with this project.

GPS Coordinates for Patoka Cemetery: Latitude: 38.75729, Longitude: -89.09996

Some inscriptions list only death dates and ages at times of death (by years, months, days). Google "birth date calculators" for help in determining actual dates.

Informational addendum begins on Page 113.

Patoka Cemetery 2

Inscriptions are listed on a row-by-row basis, beginning with Row 1, southwest corner of the cemetery. Graves in each row are listed south to north. Where <SPACE> is indicated, the open area may span the width of a single grave or several graves. A * denotes military service (reference: Jack McNicol of the Patoka American Legion).

Genealogical information added in this directory was taken from a previous directory compiled by the Marion County Genealogical and Historical Society in the mid to late 1980s. Taken from a larger directory of Marion County cemeteries (©1991), their survey of Patoka Cemetery was our guide, and we thank the society's researchers for their exhaustive work.

At the end of the directory (pages 113 - 141), there is a comprehensive index that contains names from both inscriptions and genealogical notes.

Note: Beginning with Row 26, some rows become more ill-defined. One row may even curve and/or merge with another. We followed the original directory in terms of designated rows. However, some “wandering” may be needed to locate certain graves, especially in the northeast section of the cemetery. If a grave cannot be found in one row, it should be just east or west of the designated row. Some <SPACE> indicators have been omitted because of the confusion.

Note/Reminder: Rows in this part of the cemetery are not always straight. Some rows seem to curve and merge, and some graves seem to be located between one row and another. Also, many of the older stones are broken and/or buried with unreadable inscriptions. In some cases, we could find no stones at all for the listings. We did our best to blend what we found with what was previously recorded.

Informational Addendum

Sharon Lynn Smith, 19 Nov 1939 – 29 Apr 1940, was buried next to her great-grandmother, Laura Holland Haley. Nellie M. Holland Quayle was her grandmother (see page 54). Her parents were Howard Smith and Harriet Laureen Smith. There was once a plaque marking Sharon's grave, but it is either missing or buried.

From Kathy Schultz, photo volunteer with "Find a Grave": In the section for names without stones (page 111), the entry for Mrs. Anna Desruisseaux is Anna Freyer Desruisseaux, daughter of August Freyer and Willmina "Minna" Pilgrim (page 84). Her husband is buried at Maggasi with his first wife Annie C. Jennings. Also, in row 13, Joseph and Annie Wheller should be last name Wheeler.

Also from Kathy Schultz: I was doing requests at Patoka and working on Tommie and Tyra Simcox. Requests for James Walter Simcox as well. James was missed on the original cemetery list and I don't find him on the online list either page 105. His is on the third side of the stone that Tommie and Tyra are on with the 4th side saying children of W.K and ?? Simcox. The memorial on Find a Grave is 100741149 for info.

Also from Kathy Schultz: I have another correction. Page 104, row 39. This stone was read incorrectly long age. It should read Ida B. Wall and she died in 1890. I created a memorial for her with her birth year and middle name. 127176344
