

## KCARC Membership Dues Survey

Club Name	Town	2004	2005	Freebies	Members	Other
<b>Bullitt ARS</b> Buddy, KC4WQ bskc4wq@alltel.net	Shepherdsville, KY (Louisville metro)	\$25	\$25	autopatch, best repeater coverage in area, APRS node, echolink	65	Club dues are only a part of the excitement, we use the dues to maintain our equipment (phone line etc) and to provide refreshments and food for various club functions (field day, annual picnic etc)
<b>Murray State University Amateur Radio Club</b> Bill KJ4W, FCC Trustee, MSUARC wcall@mchsi.com	Murray, KY	\$15	\$15	AutoPatch privileges. MSU campus members (students, faculty, staff) also get a key to the lab where the club radio station is housed. Off-campus members don't get a key, but are allowed use of the club station with an on-campus member letting them in.	37	Our situation is likely different from most, in that our relationship with the university provides us a meeting space (classroom) and also space for the repeater and club station. Community persons (non-university affiliated) may join the club, as well, and actually constitute the majority of our membership at this time.
<b>Central Kentucky Amateur Radio Club, Inc. (CKARC)</b> Paul, K4VXP k4vxp@earthlink.net	Campbellsville, KY	\$12	\$12	n/a	46	Meeting place and dates: Rescue Squad conference/meeting room in Campbellsville on 4th Thursday night each month except November and December. November and December meeting is combined with a pot-luck dinner the first week in December. This year will be December 4 at Rescue Squad conference/meeting room.
<b>KY Mountains ARC</b> John Farler, K4AVX KMARC Secretary jfarler@peoplepc.com	Perry/Harian/Leslie/ Breathitt and surrounding Cos.	\$12	\$12	Club call/name badge first time members. Members have to buy succeeding ones if change call...yearly certificate.	30	n/a
<b>Northern Kentucky Amateur radio Club NKARC</b> Mike Wagoner KB4VKS/AAV4CL President NKARC kb4vks@iglou.com	Our primary city is Covington per the po box but members are in the basic 7 county area considered northern ky.	\$15	\$15	The dues provide for autopatch access on the NKARC repeaters and a monthly newsletter the Feedline.	92	Although the dues for 2006 have not yet been established, I believe they may change to \$20.00. They have been \$15.00 since 1988 that I know about. All of the Cincinnati clubs except one are at least \$30.00 per year and that numbers about six that are more than ours.
<b>Dawson Hill Contest Club</b> Tim Totten, N4GN n4gn@n4gn.com	Louisville (but we have members all over the planet!)	\$0	\$0	No.	20	DHCC is a very informal club. We get together from time to time to operate various contests, but this is on a rather random basis. We organized and affiliated with ARRL primarily so we could get a club call (KY4AA) and use the ARRL QSL bureau service.
<b>Wilderness Road Amateur Radio Club</b> Sharon KE4INO griebe@mikrotec.com	Danville, Kentucky	\$15	\$15	Members receive a membership card printed on card stock I make on the computer and run through the printer. Members only have access to the autopatch on the repeater the club owns.	25	We have struggled with this problem [club dues] for years and this has seemed to work out the best. Our problem is recruiting new members and keeping them.
<b>Kentucky Colonels Amateur Radio Club</b> Jeff Martin, WB4JM President. Jeff.martin@wku.edu	Bowling Green, KY	\$15	\$15	Members receive a discounted patch (\$2.00) and the 'HamCall' newsletter	85	We meet at the BG Police Station and have our own radio room. We also have several social events and radio functions each year.

Questions asked:

1. Club Name:
2. Club Town/City:
3. Your clubs 2004 annual regular dues:
