Variation in Non Commissioned Member Rank Names

In the Army, rank titles vary between regiments and branches. For example, a private in the infantry might be known as a gunner in the artillery, a trooper in an armored unit, a sapper in a field engineer unit, a fusilier in a fusilier regiment, a grenadier in a grenadier regiment and a rifleman in a rifle regiment. A Corporal in the infantry is a bombardier in the artillery.

You should consult with senior members of your corps for the correct terminology if you use any of these alternate names

Below are some equivalents for junior ranks:

Name	Infantry	Armored	Artillery	Engineers
Private	Private	Trooper	Gunner	Sapper
Corporal	Corporal	Corporal	Bombardier	Corporal
Master Corporal	Master Corporal	Master Corporal	Master Bombardier	Master Corporal
