Hello Mari Jayn,

Thank you for getting back with me. Sorry you don't want to talk on the phone.

It is my understanding that your neighbor has burn marks in her yard and on her new screens, reportedly from your address. The day our crews visited with you, they were there to follow up on a complaint, we did find burn marks on the new screens and in her yard. As you know we have been to your

house in the past on 6-1-06 for a "burning complaint", from what our crews indicate, they found branches with green leaves being burned.

I am sure you would agree, if your burning has/is caused/ing property damage, you would want to make a change. So, in an attempt to work together

please move the chiminera and other burning pots at least 25' from structures including your own home and a fair distance from your fence. Please refrain from burning yard waste in accordance with the city policy. I believe our crews left you with a copy of the current burning policy, if not we can send you a copy or you can download from the web.

We all want you to be able to enjoy a recreational fire, but it should not come at the cost of a neighbor. Thank you for your time and consideration.

If you have any questions please feel free to call me at 651.552.4171.

Respectfully,
John Ehret
Chief John Ehret

Dear Chief John Ehret:

I am not aware of any potential fire problem.

Both of the burners I have are safe and authorized by the city I believe. I occasionally burn small logs in, mainly, in the clay Chiminera.

See photo:

<http://www.angelfire.com/mn3/advocate6/2006WSPTowing/fire.html>

Please sent me any concerns you have by e-mail, and I will be happy to effect any reasonable changes.

I am aware that one of my close neighbors is sensitive to the smell of burning and I am endeavoring to have recreational fires when that neighbor is not home, as per the neighbor's request. Many of my neighbors have fire containers for recreational fire burners and use them.

Thanks for your e-mail.

MJ Duchene
