**Dear Chief John Ehret:**

**With respect to your e-mail of the 24th instant I am not aware of any potential fire problem.**

**Both of the burners I have are safe and authorized for recreational fire use by the city I believe. I occasionally burn small logs, mainly, in the clay Chiminera, but do not do so often.**

**See photo:**

**<http://www.angelfire.com/mn3/advocate6/2006WSPto wing/fire.html>**

**Please list and send the concerns you have by e-mail, and I will be happy to effect any reasonable changes.**

**I am aware that one of my close neighbors is sensitive to the smell of any burning and I am endeavoring to have recreational fires when that neighbor is not home, as per the neighbor's request. Many of my neighbors have fire/burning containers/places for recreational fires and use them, so my accomodation may not be enough for this neighbor to get relief from allegeries/sensitivities.**

**Thanks for your e-mail.**

**MJ Duchene**
