MEMORANDUM TO PERSONS INTERESTED IN ELECTRONIC FILING

SUBJECT: Proposed Technical Standards for Electronic Filing in the Federal Courts

Effective December 1, 1996, the Federal Rules of Procedure (Fed. R. App. P. 25, Fed. R. Civ. P. 5, and Fed. R. Bankr. P. 5005) were amended to permit electronic filing in appellate, district, and bankruptcy courts under certain circumstances. The amendments permit federal courts to establish local rules to allow documents to be filed, signed, or verified by electronic means, provided such means are consistent with technical standards, if any, established by the Judicial Conference of the United States.

Attached are proposed technical standards for electronic filing in the federal courts. Comments and suggestions regarding these proposed standards are sought from the courts and from potential filers. It is anticipated that a final set of proposed technical standards will be presented for consideration by the Judicial Conference's Committee on Automation and Technology at its June 1997 meeting, and subsequently forwarded for consideration by the Judicial Conference at its September 1997 meeting. Courts choosing to implement electronic filing in advance of action by the Judicial Conference are asked to use these proposed technical standards as guidance to their efforts.

Any comments or suggestions you may have regarding the proposed technical standards may be mailed to: Electronic Filing Standards, Administrative Office of the U.S. Courts, OIT-TEO, Washington, DC 20544 (or via facsimile to 202/273-2459). We would appreciate receiving your comments on or before February 14, 1997.
