

DATE	TIME	SUBJECT	NOTES
4/1/86	5:30	#1	He has a bad cold day, no important papers not to get up anymore. Throat, of course throat day, but remains alert. He has drip of spit juice, nose, eyes P.P. 100 @ this time C: milk due
4/12/86	7 th	status	AST is upper 100/60 T 102 (R) P 88 Resp 26 & /min. Is becoming confused. Does not work wedge. Prefers pillows. Bed back green. AST gets sugar given for 1 temp. 30cc intake fluids for Only a few bits of solids taken. Urine 30cc Ensure. Does not tolerate food. brushing. Swabs. BP 68/1? Is confused, re: time seems to recognize staff. No O/A's. Entire body rationed. Sandra Continued to depend but denies any breathing problems. Has taken only a few sips of juice & water. States is comfortable but doesn't look it. Sandra Fols by T. 100 (R) Sandra Fols by
4/12/86	9:30	status	Continued to depend but denies any breathing problems. Has taken only a few sips of juice & water. States is comfortable but doesn't look it. Sandra Fols by
4/12/86	9:40	Temp	T. 100 (R)
4-12-86	1 AM	status	awake but unable to sleep. Answered questions took sips of H ₂ O @ 1:10 am and 1:20. Referred to other times. Denies pain - 55% intake R: Continued to be awake took sips of H ₂ O having difficulty seeing Steven's computer 5:31 asking about breakfast. Still in R: OT 99. Seemingly comfortable but seems more irritated & distant. Feeds only a small amount juice for fluids, although taking sips of H ₂ O & milk
4-12-86	4:00	U.A.S.S.	Reinstated her to talk to Gene about seeing a psychiatrist - she was not interviewed - then he contacted her if she wanted to go to a hospital for care she seemed confused about this & wanted some time to think about it. P. well back DAS will see in AM after talking to Gene Sandra Fols
