

DATE	TIME	SUBJECT	NOTES
7-1	6:12 am	Richstad SS here	Visited Jane with DNS accompanying her. Discussed again that Jane could move to St. Joe's Hospital and be cared for in a hospice unit. Told that her doctor stated she could go, but that her case would be the same as those that she was following as a private case at Wedgewood. The check was here, whether she would stay here or go to St. Joe's. Jane was alert and recognized both Ken and the DNS. She answered questions appropriately, but just said "yes or no", not long sentences. Q: "Is your care good?" A: Yes. Q: "Do you want to stay at Wedgewood to die?" A: Yes. Q: "Do you want to go to a hospice at St. Joseph's Hospital for care?" A: No. J. Menard
4/14/86	1 pm	DCAL	A-looked at - may be further weight at requested.
	3 pm	intake	Intake through day approx 350 cc. No liquid food. Alert + talking. Left to deny pain this needed. She had a prescription of small packet of 100 mg acetaminophen approx 1/4 75 cm in 1000 cc of water. She is very necessary with N/T with potassium. K. K. K. K.
14-86	8 pm	Status	Continued to be the same. Very weak. Taking signs of fluid. Color fair. Dozing frequently - but easily aroused. Alert + responsive. Answers questions appropriately. She now would not spit.
1-15-86	10 ¹⁵	Status	Intake down. Approx 150cc this eve. Refused supper. Requested Coke - Took a few sips. Had appliance - h.s. med. Oral care done with difficulty - cough.
