## Energy Healing

Our physical bodies are created by Cosmic Energy and also supported by it. Healing is needed when there are mental, emotional and physical blockages in the body. All blockages consist of physical health problems, emotional disturbances, financial issues and mental disturbances which create many illnesses, stress, worries, anxiety and fear.

Energy Healing aims at getting the best possible quality of life in the physical, emotional, mental and social aspects. Energy Healer use only Cosmic Energy to heal. The integrated approach of Energy Healing allows to go deeper into the health problems well beyond the physical symptoms.

The word Reiki is made of two Japanese words - Rei which means "God's Wisdom or the Higher Power" and Ki which is "life force energy". So, Reiki is actually "spiritually guided life force energy."

Reiki is a Japanese technique for stress reduction and relaxation that also promotes healing. It is administered by "laying on hands" and is based on the idea that an unseen "life force energy" flows through us and is what causes us to be alive. If one's "life force energy" is low, then we are more likely to get sick or feel stress, and if it is high, we are more capable of being happy and healthy.

A treatment feels like a wonderful glowing radiance that flows through and around you. Reiki is a simple, natural and safe method of spiritual healing and self-improvement that everyone can use. It has been effective in helping virtually every known illness and malady and always creates a beneficial effect. It also works in conjunction with all other medical or therapeutic techniques to relieve side effects and promote recovery.

An amazingly simple technique to learn, the ability to use Reiki is not taught in the usual sense, but is transferred to the student during a Reiki class. This ability is passed on during an "attunement" given by a Reiki master and allows the student to tap into an unlimited supply of "life force energy" to improve one's health and enhance the quality of life.

Its use is not dependent on one's intellectual capacity or spiritual development and therefore is available to everyone. It has been successfully taught to thousands of people of all ages and backgrounds. Mikao Usui, the founder of the Reiki system of natural healing, recommended that one practice certain simple ethical ideals to promote peace and harmony, which are nearly universal across all cultures.

- Just for today, do not anger.
- Do not worry and be filled with gratitude.
- Devote yourself to your work.
- Be kind to people.
- Every morning and evening, join your hands in prayer.

Applying Reiki is practical and useful. It accelerates and strengthens any healing process from bruising to chronic illness to mental/emotional imbalance. Reiki can be used at any time and in any situation when we can lay our hands on ourselves or another.

The wonderful healing properties of Reiki knows no boundaries. Because Reiki Energy is not limited by time and distance, Distant Reiki Healings can also be given without the client being present. It is easily done and works very well. The following Reiki treatments can be undertaken.

### Chakra Balancing (with Pendulum Dowsing)

The chakra system is the field of gentle subtle energy that animates our physical bodies. There are seven main chakras and they are located along the spine extending out the front and back of the body. When these chakras are out of alignment, we can feel off center from our most natural state of wellbeing. Blocked energy in our seven chakras can often lead to illness. Pendulum dowsing can be used for balancing the chakras. When placed over the chakra centers, the pendulum rotates and balances the respective chakras.
