

# Civil Wartoons Catalog

**“Wartoons”:** Digital Civil War “doodles” that can be manipulated and customized to fit your own enthusiast group’s theme or slogan. There are many characters to choose from and I can combine a variety of images to create almost any Civil War scene and/or scenario.

**Products & Services:** Each “Wartoon” is meticulously researched for historical accuracy. All graphics are delivered in both hi-resolution (print format) and low-res (web-ready). I also support both PC and Mac platforms and can deliver the digital files in a variety of formats including EPS, TIF, JPG, PDF (and more).

**NEW “You-toons”:** In addition to familiar and famous Civil War subjects, special customized characters can be designed featuring your own re-enactor portrayal. Simply send a period photograph and a brief description of the individual’s unit and designation info. (For an additional fee, your entire unit can be done in a group setting.)

**Great for gifts and promotional materials:** Muster and banquet commemorative items, T-shirts, iron-on transfers, bookmarks, etc., Delivered as both website and print media in MAC or PC formats.
