"If Martin Luther King Jr hadn't been assassinated, after getting the vote for downtrodden people, his next step was health care, 'Of all forms of injustice, injustice in the healthcare system is the most shocking and inhumane'" -- Dr. King quoted by Dr. Joel Wallach in his opening remark on his 2012 CD "Until Death Do Us Part" about the tragic problems with people's dependency on Medical Doctors for their health care, and the 90forLife nutritional solution to the healthcare crisis in America. <http://healthybodychallenge.com>, <http://califdavid.my90forlife.com>

It is with great pleasure and anticipation that I write this to explain a bit about the reasons I am initiating yet another cross country route of the Global Peace Walk project that has already crossed the USA twice (1995 UN NYC – SF & 2000 SF - UN NYC) to bring out the prayer for "Global Peace Now!" as the universal human resolve, believing this is the first step towards actually realizing that goal.

Starting on the October 24, 2013, United Nations Day 68th anniversary of the ratification of the UN Charter, the third cross country route of the Global Peace Walk will depart from San Diego to Washington DC (for June 14th Flag Day Ceremony) and ending at the UN building on the June 26, 2014, 69th anniversary of the first signing of the UN Charter in San Francisco which promised to "...eliminate the scourge of war from the future generations". There will be a "feeder route" starting on Oct.2 from Santa Barbara to San Diego, and from the UCSB Tree of Peace to Santa Barbara City Hall on Oct.1. Supporters are encouraged to conduct local noon weekly "Walk Around the Block" events at their city hall and ask their mayor for a proclamation of support to put into the news with weekly reports on the national walk progress announced at each week's local walks, for a Rainbow Uprising Consciousness Revolution.

The main event on the way to Washington DC will be in Atlanta Georgia on the April 4th, MLK Death Day Anniversary, City Hall noon 90forLife ceremony and walk to MLK Center, then walk to Emory University Hospital, then to Centers for Disease Control and Prevention, to offer thanks for their sponsoring Dr. Wallach's research in the 1960's that resulted in the determination of the "90 for Life," then the Martin Luther King Memorial Healthcare March on Washington DC from Atlanta, "we want real healthcare, not just MD disease management".

You can see some precedent examples in the texts of a few of the many proclamations and messages of support that the Global Peace Walk has received since 1995 posted at <http://angelfire.com/on/GEAR2000/listproc.html> , including one dated January 11, 1995, from Ms. Coretta Scott King the text of which is posted at

<http://www.angelfire.com/on/GEAR2000/king.html>

This time we are carrying the self-healthcare message that has universal human appeal, including even to the “bad guys” who are mostly responsible for the mess that the world is in right now, called “90forLife!”

The Mayors of Santa Barbara and San Diego have already offered their proclamations of support for this 90forLife Global Peace Walk 2013-14.

The Global Peace Walk 1995 focused exclusively on bringing out the prayer for “Global Peace Now!” as the universal human resolve, believing this to be the essential first step towards accomplishing that goal. It carried the published messages of the global indigenous cultural leaders delivered to the United Nations on December 10, 1992, in booklets provided by the UN office of public information.

The Global Peace Walk 2000 added to this main goal the issues of the “free energy technologies” to replace nuclear and fossil fuel power that are being suppressed in favor of covert development of advanced electromagnetic weapons (<http://groups.yahoo.com/group/new-energy-solutions>), and the hemp/cannabis/marijuana issue for food and human health, proposing a global hemp economy for biofuels, paper and composite construction materials to save trees, as discussed in its recommendation to the United Nations signed by all the walkers and delivered on arrival October 24, 2000, “[Creating a Culture of Peace for the 21st Century](#)”, which recommends a “Spiritual United Nations” patterned after the historically successful Haudenosaunee Iroquois Confederacy that the Hopi Elders say should be respected to unite all of the nations in peace and harmony as previously done before the formation of the United States whose constitution in large part is imperfectly patterned after the Haudenosaunee system. (Reference Thomas Banyacya and Jake Swamp discussions in the 1990 Rainbow Uprising video posted at: <http://www.youtube.com/watch?v=24zy2WEFdf0>)

The Global Peace Walk 2013-14 will attempt to propagate to all of humanity the “battle cry” of “90 for Life!” per the work of Dr. Joel Wallach. (<http://drjwallach.com>)

Dr. Wallach became a natureopathic physician in 1978 out of frustration with the lack of receptivity in the community of medical doctors and institutions to implement his findings in humans where in the 1960’s his research helped eliminate over 900 diseases in animals with nutritional supplements alone, chronic and life threatening diseases that still plague human beings primarily because of suppression of this information (about the 90 essential nutrients that humans need to live healthily beyond age 100 – the “90forLife!”) by the “medical industry” of insurance companies, medical diagnostic equipment manufacturers, the American Medical Association’s Medical Doctor Monopoly, and the revolving door between Big Pharma and the FDA/FTC sham regulators, an “industry” over 3 times larger than the defense industry.

Sixteen years ago Dr. Wallach’s son and daughter in law started a company now called Youngevity Essential Life Sciences, to produce and distribute via a network marketing people to people sales system these proven nutritional supplements for human beings, to bring the people to full health and extend their longevity by giving the body all the 90 essential nutrients it needs daily.

You can see details about all this, and the 90forLife Healthy Body Challenge, about Dr. Wallach’s work, and how you can

participate, at: <http://healthybodychallenge.com>

Dr. Wallach was previously a veterinarian and pathologist who has conducted over 20,000 autopsies on over 454 species of animals including human beings that died of natural or unknown causes. In every case he determined that they died of one specific kind of nutritional deficiency disease or another, even human beings who died over the age of 100. Much of this work was done and funded under auspices of the National Institutes for Health funded Centers for Disease Control and Prevention Yerkes National Primate Research Center at Emory University in Atlanta Georgia, “down the street” from the Martin Luther King Center where the Global Peace Walk 2013-14 will start its final leg to Washington DC. Dr. Wallach was fired from his position there after proving that cystic fibrosis was a nutritional deficiency disease, evidence of the institutionalized suppression of his work in favor of the current “medical industry” with its death grip on humanity.

Other nutrition authorities say there are 82 or 84 essential nutrients that the human body cannot make and therefore must be taken in foods or supplements every day for proper health, but Dr. Wallach’s research has determined that there are 90, and 60 of them are minerals and trace minerals including some rare earth elements that play key roles in health such as Gallium in brain health, Selenium for empowering the human immune system and to address cancer and cardiomyopathy, essential fatty acids to prevent stroke, etc.

Please see our current rudimentary peace walk webpage (experienced webmaster needed) for updates, the route, and details including a July 11th press release about the walk and the related Rainbow Uprising Campaign, and the first Mayoral Proclamations of support for this route recognizing the 90forLife message.

You can support this Global Peace Walk 2013-14 by becoming a Youngevity Independent Associate for \$10 or more, so you can purchase these products for your own increased health and longevity at a 30% discount, and offer the opportunity to others to do the same via a great network marketing home based business program with significant tax advantages.

And/or you can donate to help the walk with its expenses so it will be more successful. Those donations will be fully tax deductible as a business expense if you are enrolled as an Independent Youngevity Associate, even better for you than a tax deductible charitable donation, since the walk will be promoting the 90forLife message and helping you as our sponsored associate to increase your success via the walk publicity and networking.

You can donate to the walk by sending money via paypal to [gear2000@lightspeed.net](mailto:gear2000@lightspeed.net), or join our Youngevity team by going to <http://califdavid.my90forlife.com> and click Join, scrolling down to the bottom for the \$10 enrollment option or take advantage of any of the other enrollment options that include samples of the product, or even set up an auto-ship to get you what you need each month for your increased health and longevity.

You can also send money directly from your bank account to our bank account so we can draw funds along the way from ATM’s across country, using this bank information:

Bank Routing Number: 122234783

Account Number: 192448778

We have one 27’ RV with an additional 4 bunk beds committed for starters, and the founder of the Global Peace Walk

has found a nice shorter RV that he wants to buy for \$5,000 pending receipt of additional funding. So far this effort has been exclusively funded from my income as a salesman with [Remote-Learner.net](http://Remote-Learner.net) where I hope to help Youngevity create online courses delivered by the open source Moodle learning management system, to offer Dr. Wallach's teachings to medical and health professionals and the general public with assessment activities and certifications of completion.

Please let me know as soon as possible by email or phone if you want to help with local support arrangements in your area. This can be for towns where the walk will be coming through, or even if the national route will not come through your area you can do a local noon 90forLife Global Peace "Walk Around the Block" at your city hall and ask your mayor to also offer a proclamation of support, get local news coverage reporting on the national walk progress and local walk activities and messages.

This is a peace walk that will create jobs in the "health industry" as independent business incomes while its mission becomes known and accepted by understanding people across the country, whether they live in a city along the main route or not!

Please join us in support of this important effort for "Global Peace Now!" as the universal human resolve.
