

Atomic Gospel

Jake Deshazer - was one of those captured and as a believer evangelized many in the Japanese army and eventually lead the commander of the pearl harbor raid Mitsuo Fuchida to the lord. They were kept in hidden confinement in china where they were captured. The second Atomic bomb on Nagasaki was the only thing which kept the Japanese from killing these prisoners and many, many others.

Mitsuo Fuchida

Started farming near Osaka after the war. He built a house and dug a well and lived in Loneliness. He was at one time a Navy Captain next a farmer.

He thought at length about his many unusual rescues during his 25 years of military service.

He describes at length his entering God Consciousness.

4 years past and he watched changes in the world and his homeland. He wrote a book for the Japanese "No More Pearl Harbor", but could not find an ending. He contacted a friend a navy lieutenant and asked him what kind of treatment he received in the American prisoner camps. He explained that in the prison camp something happened which allowed all the prisoners to return home without any resentment and in fact light heartedness.

An American girl came to the camp and ministered to all the needs of the prisoners and helped them as much as possible. She was asked why she did this. She explained that her parents were in the Philippines as missionaries and had to move to the mountains around Luzon where they stayed for 3 years until the Americans landed and drove the Japs in to the mountains where the Japs found and eventually executed them but did allow their last request to read their bibles for 30 minutes and pray.

Fuchido couldn't understand this kind of Love. Fuchido was eventually called to Tokyo by McArthur and when he got off the train there was a missionary handing out leaflets "Timothy Pietch"

"I was a prisoner of Japan" by Sargent Jacob Deshazer, who bombed tokyo.

He explained his hatred for Japs which begun with the Bombing of Pearl Harbor which Fuchido lead. Deschazer explained his hatred and how he volunteered for the mission to bomb Tokyo. He explained his bitterness and torture but is was all based on his hatred and firing on a fishing boat from the bomber. He explained that he asked for a bible and eventually was granted one and only to be allowed to have it for 3 weeks and he searched the bible and realized that hatred was not necessary and changed his attitude and the guards saw this and let him have it for longer than 3 weeks. Despite further torture and abuse he continued searching the bible.

Fuchido decided to buy the bible (in Japanese), and read a newspaper article describing how the bible was in many languages and the worlds best seller. He bought one and read it and in Luke was amazed by Jesus saying "Father forgive them for they know not what they do" and he remembered the girls story about her parents and understood it. He at this point in his mind accepted Jesus Christ as he personal savior. He got in touch with Tim Pietch and eventually with Glenn Wagner who graduated from Dallas Seminary and Glenn put him on the Track concerning the Spiritual Life. He eventually announced that he was a Christian the Paper Headline was "From a soldier of Fame to a Soldier of Love, etc"

His opinion was that Japan was at a cross roads and that the only thing which would deliver is was not Japanese Doctrine nor Communism but Only Christian Doctrine.

Fuchido was in Berachah Church in 1953.

All of these things came together for a particular purpose. How did this ever come out to be? Glenn Wagner, Jacob Deschazer, Mitsumo Fuchido (died 1976)

The Word of God did it , It is a alive and powerful, sharper than any 2 edged sword.

Prov 6:21-22

**Bind them (Bible Doctrines) to your heart,
When you walk IT (Doctrine) will lead you, When you lie down IT (Doctrine) will guard you,
When you awake IT (Doctrine) will talk to you.**

If Truman had not authorized the use of the Second Atomic Bomb then Jacob Deschazer would be dead and Mutsimo Fuchido would not be in heaven at this time and countless Japanese would not have become aware of the Gospel of **Jesus of Nazareth, the Christ**.

Thus **Jesus of Nazareth, the Christ** in this case controlled history through the use of the Atomic Bomb.

Because of the Dropping of the 2 Atomic Bombs the Japs were moved to surrender.

The first didn't do the job the second was necessary.

In japan there were millions who were positive at God Consciousness.

Fuchido went from Hatred and irrationality and evil to Love.

If the Bombs were not dropped the women were issued bamboo spears to throw at American soldiers and try to kill at least one American, Every civilian was being armed.

They were mining Japan and the casualties there would have been more than 1 Million American soldiers.

In the American army there was a fantastic Positive Volition and there were millions in Japan who were searching.

So that Positive Volition could be satisfied in the United States of America and in Japan the Bomb had to be Dropped.

A friend of the Col R. B. Thieme mastered the Japanese language and wrote in it and went to Japan as a missionary and McArthur called for bibles and had millions delivered to Japan.

If it were not for the Bombing of Hiroshima AND Nagasaki, despite the Liberal Viewpoint, MILLIONS of American and Japanese would have DIED and MILLIONS MORE would never had the opportunity for Volitional Exercise regarding Salvation Adjustment to the Justice of God through Faith in Jesus Christ.

To Kill the Devil, by Herb Malloy Mason Jr.

Appendix 5, 3rd Draft of what Germany Needed

1st Task is restoration of full majesty of the lay, Government must avoid every arbitrary act.

Importance of Jurisprudence

2nd Task is restoration of Justice.

Many opposed Hitler.

No human society can exist without law, no one including the person who thinks he despises law can do without it. (Rom 13:1-8) There comes an hour for everyone in which he calls for justice. God has given to us the necessity for law in his ordering the universe in his act of creation, in his commandments, he has endowed us with insight and strength to make our worldly establishments secure in the framework of the law.

It is not the business of the judge to make new law he is to apply the Law and do so Precisely.

Lawbreakers will receive their deserved punishment, both individuals and property will be protected from arbitrary action, only the Judge and then only according to the law may interfere with those whose personal rights of the individual are involved. No One must ever attempt Mob Justice. We must make every effort to prevent the taking of personal revenge.

In Germany it was Known from 1936 on that there would be Jewish persecution in antisemitism. All history is filled with the ashes of nations who were antisemitic.

The persecution of the Jews which has been pursued in the most inhuman and merciless and degrading forms which can never be atoned for is to be stopped at once. Whoever thought he can enrich himself with Jewish property will learn that it is a disgrace for any German to seek such evil gains. (during the height of Hitler's power) The German people will not put up with marauders and hyaena's among the creatures created by God. We feel that it is a deep dishonor to the German name that crimes of all sorts have been committed in occupied areas behind combat troops and misusing their protection.

3rd task

One of our principle tasks is to mold the family once more into the nucleus of the international community. To do this we need the influence parental home and the strength of Christianity and the cooperation of churches. A clean and wholesome family life can be built up only on a serious and responsible evaluation of the life community of Marriage. We must fight the double standard if the children are not to become debauched.

4th task is to declare war on lies.

The son of truth will disperse their dense mist which hides our land. Our people have been shamelessly lied to about our economical, financial, political and military situation. The facts will be established and made public so that every person can check them. It is a huge mistake for government to assume it may lie so that it can line up the people for their aims. There are no such double standards of truth in God's Divine Order. Moreover the Lies turned loose by government have short wings and are always borne on cowardice and power.

Many of these men were hung on Meat Hooks when they were caught by the Gestapo.

5th Task is Freedom of Intellect and Faith.

The vanished freedom of intellect conscience, faith and opinion must be restored. The churches are once more entitled to function freely according to their confession, in the future they will exist in complete separation from the state. They can do full justice to their task only in a condition of independence avoiding political involvement. The state itself will be based on the Christian attitude in word and deed, for we owe to Christianity the evolving of our state. No state or nation can dispense with self mastery by the individual involved but genuine Christianity also demands tolerance to persons of another faith and even free thinkers. The state will allow the churches full leeway to be active in the sense of true Christianity in particular in fields of public welfare and education. The Press shall be free again. During this war it will have to subject itself to the restrictions that are indispensable in any nation in time of war. All who reads the newspaper will know who stands behind that paper. The press will not be permitted to spread untruth deliberately or through negligence. Under a strict code of honor the editors will ensure the press observes the laws of duty toward our nation.

Concerning education, This education will relinquish first and foremost to the parent then the schools.

There was a nucleus of believers who opposed the Nazi's including one of the greatest

The administration of state must be ordered anew, nothing will be revoked that has stood the test but we will have to restore clear lines of responsibility (to the people) and also the freedom of choice for independent decisions, With a minimum of writing they shall do the right thing in the simple way. We shall cancel all measures which have interfered with the freedom of the individual. We shall get rid of ill considered measures that have needlessly dried up supplies of essential goods, in commerce, trade, industry, and agriculture, nor will state interference be allowed to disturb economic processes.

The joys of endeavour and creation and the potentialities of inventiveness. There will be fair competition and decent attitude. The initiative of enterprise to compete in efficient production will be the order of the future.

Property .

Property is the foundation of all economic and cultural progress. Without it the human sinks rapidly to the level of the animal. Property is therefore protected not only in the hands of the great property owner but also in the hands of the small owner who calls only household effects his own. The misuse of property shall be fought as determinedly as unhealthy concentration of capital that increases human dependency. The Economic order will be built upon individual responsibility. We must bear in mind that the state has no inexhaustible means. It lives only on what its citizens accomplish and make available to it. It cannot give out to the individual citizen more than it has available from the productive power of its citizens. Therefore we refuse to make promises of economic well being. A basic prerequisite of a healthy economy is a sound public budget.

In this hour we must advise our people that it is our solemn duty to wash clean the German Name. Which has been soiled many times over. We Germans must do the job relentlessly and patiently, seriously honestly for our future depends upon it. For God is not here to be called upon on each cheap occasion by the word providence. He also demands that his order and commandments be respected. To assume that the future can be built on the unhappiness of others, the suppression of human dignity. That was an error built on the unfortunate dictatorial treaty of Versailles. None of us want to encroach on others sense of honor. What we ask of ourselves we must also grant to others. We believe it is in the interest of all peoples that peace be lasting once and for all. May God give us insight and strength to mold the meaning of these sacrifices for generations to come.

Letters to Fria

Helmut James VonMulke, a Great Prussian Aristocrat.
Over 400 pages of letters written by this man regarding what love is.
He is an authentic German Hero during the Nazi regime.

His father was Bismarck's greatest field marshal. Trained in Berlin in London's Inner Temple (greatest legal schools) passionately opposed to Naziism but because of his deep Christian faith, and political foresight unable to condone the use of violence in the struggle against the Nazi regime. He turned his formidable talents and training loose in 2 great campaigns:

By wielding his legal expertise like a bureaucratic monkey wrench he countered the exportation and murder of many thousands of Jews. He protected the execution of captured soldiers and saved many thousands of lives. He brought together the best possible minds among fellow resisters of Nazi's for the building of a new Germany with totally new democratic government which would have to be ready to take responsibility for itself when Hitler was set aside. (He did not believe in any method of killing Hitler. He was a very strong believer in **Jesus of Nazareth, the Christ**) He did some of this by working for military intelligence

The Grace of our Lord **Jesus of Nazareth, the Christ** and the Love for God and the Fellowship of **God the Holy Spirit** be with you all.

(VonMulke did not believe in trying to assassinate Hitler, many other believers and many of Hitler's generals tried to assassinate him but he did not die (it was not God's time) and he murdered all of them.

This one man stood before the most evil judge and the judge had never ridiculed him knowing that just as the judge gave himself totally to the Nazi cause, VonMulke gave himself totally to God.

When the believer attains the first tactical objective the Personal Sense of Destiny, God opens a door into a new world, and for us to enter into this new world, Virtue Love and True Happiness is the Whole thing.

When we walk through this door toward our true happiness and Occupation with the Person of **Jesus of Nazareth, the Christ** we must leave things behind. This door opens with the Personal Sense of Destiny and this develops a simple catechism in our thinking.

1. ***I do not believe in Christian activism but in maximum exploitation of the 4 spiritual mechanics.***
2. ***I do not believe in using violence to overthrow government.***
3. ***I believe that Jesus of Nazareth, the Christ controls history (and I would never lift a finger to assassinate any Evil person in government)***
4. ***I believe that God makes war against the Arrogant Believer and gives Grace to the Humble believer.***
5. ***I believe that we should render unto Caesar what is Caesar's and to God what is God's.***

Pay your Taxes and Owe no one anything but Virtue Love.

Conclusions about Christian Activism.

- a. ***Christian Activism both impoverishes and reduces a magnificent spiritual issue to the level of a political Brawl.***
- b. ***This interferes with the will and plan of God for your Life and have muddied the water of the only spiritual issue that the unbeliever has to face that being Salvation Adjustment to the Justice of God is through Faith in Jesus of Nazareth, the Christ alone.***
- c. ***The nature of the Gospel of Jesus of Nazareth, the Christ demands that we make an issue for Jesus of Nazareth, the Christ and his Substitution for us on the Cross (2Cor 5:) and we must invite the world of unbelievers to be reconciled to God and you cannot be involved with Christian Activism and give the message of being reconciled to God.***
- d. ***Freedom is the issue of the national entity. Establishment freedom in the national entity and is for the purpose of allowing free choice for or against the Gospel of Jesus of Nazareth, the Christ . Christian Activism obscures the issues of the Gospel and is a system of bullying and tyranny.***
- e. ***To seek to superimpose the Spiritual Life of Christianity on the life of an unbelieving human being is the tyranny of Christian Activism.***

Creation of a tragedy in these United States.

- a. ***The malfunction of the Post Salvation Spiritual life has been obscured in the time we live in by the arrogance of civil disobedience, of social engineering, of the justification of violence in the name of Christianity, of utopian socialism of sir Thomas Moore which is redistribution of wealth.***
- b. ***Activism is trying to solve a problem by Violence and Christian activism is so because of so many Christians involved.***
- c. ***This results from the arrogance skill function of finger pointing of denial and projection.***
- d. ***Freedom of the national entity is the grace gift of God to the citizens in that national entity to believe and succeed or not believe and fail.***
- e. ***Politics must never be a vehicle for superimposing on the unbeliever a personal system of virtue and values related to the ministry of God the Holy Spirit which no Unbeliever can ever have, and instead becomes a shouting match between political hacks and obscures the issue of Salvation through Faith in Jesus of Nazareth, the Christ.***
- f. ***The issue in the political sphere is Human Freedom, and the self determination of the individual citizen to support that freedom through the Laws of Divine Establishment .***

- g. Establishment freedom is the role of Government in terms of national and individual security and the governments first objective is to protect the individual freedom through law enforcement and jurisprudence and the laws of evidence. And the second function is to provide National security through the rightful and honorable function of the military establishment never through Paramilitary functions.**
- h. Personal Freedom through the proper function of law enforcement and national freedom through proper function of military establishments are the first concerns of government in protecting your freedom and self determination so that you will be free to succeed by your own volition and free to fail.**
- i. The spiritual life of Christianity is not a political instrument designed to superimpose unique doctrines belonging to Christians only on the general population.**
- j. Freedom without authority is Anarchy and authority without Freedom is Tyranny.**

Bind them (scriptures on your heart,

When you walk it will lead you, when you lie down it will guard you, when you awake it will talk to you.
