

## *Prayer for the USA*

Dear Father,

We come before the Throne of Grace in fervent prayer for this nation and its citizens - who are in need of Divine intervention. The safety of these United States is in jeopardy, as its supreme leaders have proven disloyalty to Her in every way.

At this time Father, we pray, in this upcoming election, for leaders who will respect the foundation set so many years ago, at the birth of this great country; a president who will honor the efforts and sacrifices made by those dedicated soldiers who have provided the freedom we enjoy today. Please lift the morale of those men and women who are presently in harms way and remind them that their efforts are greatly appreciated by many who remember them daily in prayer.

May this free nation be blessed with continued freedom and success. May we be well equipped to defend that freedom when needed. May our future leaders be wise and of good judgement, have high standards for the office of which he/she represents, and have values representative of integrity and virtue even in their private lives. Father, we pray that the United States of America be preserved and restored - that it, once again, be a nation where its people value freedom so much that they evaluate carefully the promises of government 'security'.

Father, we know that Jesus Christ controls history and that we are foolish to put our trust in anyone else. Many nations have been raised up - many have been destroyed under severe discipline from the Supreme Court of Heaven. We know that this nation is sinking fast, and that only through a dramatic change in our thinking, will She survive. We pray, again, for the safety of our military forces who are in danger - protect them, keep their minds free of bitterness and stress, and their bodies strong and able. Remind them of Your perfect grace and mercy so that they may continue in determination and loyalty to their country.

Father, we have become a nation of individuals seeking self-pleasure - we have become very negligent in our allegiance. We move through each day aimlessly, without true direction, giving not even a single thought to why we exist and what kind of heritage we wish to leave behind for future generations. Remind us that the only true heritage is a spiritual one - the only one that lasts through all Eternity. May we be mindful that not even one day should be wasted on self-absorbed ideas - that we are here for one purpose - to glorify Thee. May we live our lives in the light of Eternity.

During this election, may we have wisdom to see the "true" candidates who stand before this nation, making claims and promises that test our own conscience and integrity. May we make the right choice - the best choice for these United States. And, no matter what the outcome, may we remain focused on Your greatness and Your power, with full confidence that Jesus Christ alone controls history.

We pray this in the name of our Lord and Savior, Jesus Christ. Amen.
