

H-Frame Easel with Easy Base Option

by Sarah-Lynn Brown

Tools:

**I recommend a Drill press to construct base with dowels.*
Drill, screwdriver, jigsaw or other saw. Wood clamps

Wood:

1- 1" x 2"x 72"(6ft)

6- 1"x3"x72"

1- 2"x2"x 36" (Base)

*1 additional- 1"x3"x72" (easy base)

1- 2"x4"x 72"

3/4" corner trim (looks like a 'L' from side)

scrap plywood 6" high and 25.5" long for back of paint tray.

4' ft of 2" wide Lattice

decorative trims

Hardware:

2- 1 1/2" or 2" (cheap) corner braces

2- 2" strap hinges

2- thumb screws and matching nuts (1/4"-20 x 1 1/2")

Dozen+ 1 1/4" wood screws (buy a box of 25+)

1- specialty knob and matching nut

I got a fluted knob w/ male stud (5/16-180x 1 3/4")

2- 1 1/2"x 1/4" bolts & nuts, make sure they can fit into the corner brace holes.

Wood Glue,

2 - 2" wood screws to attach support brackets

one- 1/4" inch dowel for building spine.

lots of metal washers (1/4" holes)

***Optional:** 4- 2" caster wheels (2 reg/2 locking)

Standard Base- 4 thick 1/2" or greater dowels 4 inches long for base

Easy Base- 12-16 extra wood screws
