*“Islas” is a quarterly publication dedicated to Afro-Cuban issues.*

*It is part of a larger project named Afro-Cuban Alliance (ACA), a nonpartisan, not –for-profit, charitable and educational organization in existence since May 2004, based and incorporated in the State of Florida.*

*Islas will seek to inform Cubans of African descent on the island and abroad about civil rights, the hidden history of slavery and racial discrimination in Cuba and the experience of civil rights movements.*

*To ensure a broad spectrum of perspectives and promote a public discussion, we seek to work with articles from Afro-Cubans, individuals of African descent throughout the world, and other interested persons to better gain their perspectives and experiences on the status of the people of African descent populations in their countries and struggles they have faced.*

*Islas accepts articles related to history, art, literature, religion, folklore, contemporary issues, and essays/studies. All the articles reflects the opinion of the authors.*
