

Pinwheel: Wind at Work

1. Decorate your pinwheel on both sides.
2. Cut out the pinwheel. Cut along the dashed line, too.
3. Fold the A, B, C and D corners into the centre dot.
4. Put a fastener or pin through the centre.
5. Attach the pinwheel to a straw using the pin or fastener.
6. Think of at least two makes to make the pinwheel work. Record your strategies on the next page.

Name: _____ Date: _____

Air at Work

1. Pinwheel

Think of at least two makes to make the pinwheel work:

1. _____
2. _____

2. Blow Dryer

Try putting a *little* water on your arm. Now blow on it for a few minutes. What happens to the water? Why?

3. Flying Balloons

Blow up a balloon and hold tight to the opening. Then let go of the balloon. What happens? Why?
