

Discover the beauty in fruits, berries and vegetables. Dissect to disclose the hidden secrets encased within. Observe the variety of colours, textures and shapes and the exquisite and unique character of Fruits and Vegetables. Explore the principles of tone, highlights, composition and perspective.

Discover how to make your subjects look 3-dimensional. Explore the principles of mixing, layering and glazing of colours and various watercolour techniques. Focus will be on the details that make the work exciting, realistic and come to life. Work at your own pace. All skill levels welcome. Develop new skills or extend existing skills with class demonstrations and individual tuition.
