*Thorson's Bay*, by Elmer T. Adrian, is a love story—combining romantic and spiritual love. It is the story of the love and caring for the country of his birth, that is, the Minnesota lakes area and timberlands.

A minister, just out of seminary, starts a new church and, with the help of a select few whom he has drawn closest to, reaches out to the community to save the area from commercial devastation. His church assignments take him, with his select few, to other areas, where he makes a positive difference. In this, the author's first published novel, the characters are finely drawn and individualistic. The story has energy and purpose, driving toward its climax.

ELMER T. ADRIAN resides in Iowa, and is retired from a career in jewelry manufacturing and repair. Married, with two grown children, the author enjoys writing poetry, playing golf, and teaching Sunday school.

[May 2002 obituary for Elmer Adrian](#)

At times, he pictured her nakedness, the perfection of each tantalizing contour, combined with the excellence in every other category. How could he feel otherwise? He also knew the love they had for each other transcended the physical. She was his to have and hold and yet barriers of custom and friendship stood between them. He dreamed of her and that made the waiting more difficult. Yet, through the heartache and break, there was the euphoria of anticipation.

In this mood, Matt went to see Father O'Brien hoping that Star may have left a letter for him. She had and Father O'Brien grinned as he handed it to Matt. "I know what you came for, so take it with you and come back when you have both feet back on the ground."
