ARE YOU IN NEED OF NEW TIRES?	

**CARD.**

**GOODRICH CO.**

**AKRON**

**OHIO**

**Tire Department**

After reading the text on this "ballot" post card and noting that it was unused, I decided that these were handed out at some event or left with a Goodrich tire dealer for customers to fill out and mail in.

I am a bit curious about the "Detachable Feature." I seem to recall placing tires with tubes, on steel rims with a hole to insert the air valve. In turn the rim was placed on a wooden spoked wheel, using a series of special clamps that were screwed down to hold the rim to the wheel.
