## Diagonal "A/C/S" Perfin (A1460) from Dave Hill.

Still in the religious vein the perfin A/C/S (diagonal) had not been identified in either Tilles or Tomkins. In the Sloper ledger is the identity "Additional Curates Society".

A new identity but history may never reveal who or what the Additional Curates Society was.

(Can anyone prove Dave wrong and come up with the answer? Ed.)
