

## List of earliest use of U.S. perfins updated

**R**ichard Learn, the chronicler of early U.S. perfin patterns, has provided five updates to his list of the earliest known use of perfins in each of the 50 states, Puerto Rico, and the District of Columbia (first published in the March 2000 *Bulletin*). The changes are shown in bold type in the following list. If you have perfins used earlier than those shown here, contact Learn at 154 Kendale Drive, Safety Harbor, FL 34695, so he can continue to keep the list up to date.
