
A Correction & An Addition

Steve Endicott (LM#2284)

Thank you to Dave Smith (#1514) and your sharp eyes for correcting the identification of the U.S. perfin pattern **S25** with the Detroit precancel that was pictured in my article "My Favorite Perfins - Part VI" in the September/October 2009 *Bulletin* (63:110-111). This imperforate stamp is on Scott #481, not Scott #343 as stated in the article. (The denomination is a numeral 1, not the word "one".) My mistake. I apologize for any confusion.

Dave also forwarded a scan of perfined imperforate stamp that he has in his collection. The stamp pictured below is example of deleted pattern **B86.5** (BD/C) on a Scott #384. As explained on page B-16 of the current *Catalog of United States Perfins*, pattern **B86.5** is a partial of pattern **B88** (BD/Co). In The identified user of this B rated pattern is Brown Durrell Company, Boston, MA.

Deleted Pattern **B86.5** on Scott #384
(Partial of Pattern **B88**)
